Exam

QUESTION 1
What are two features of Subscriber's Choice for Business? (Select two.)

A. driver and support alerts
B. peer-driven forums
C. centralized management of cases
D. proactive customized email messages
E. detailed knowledge base

Correct Answer: AD
Section: (none)
Explanation

Explanation/Reference:

QUESTION 2
http://www.lead2pass.com/HP2-T21.htmlWhere can you obtain a list of the latest top issues that are related to a particular product or solution?

A. Support Case Manager
B. HP Enterprise Business Community
C. SmartSetup CD
D. HP Support Center

Correct Answer: D
Section: (none)
Explanation

Explanation/Reference:
http://www.lead2pass.com/HP2-T21.html

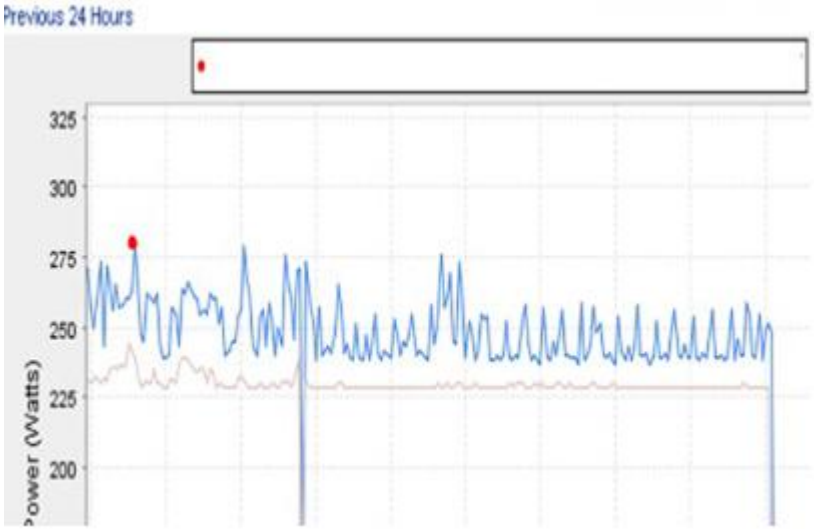
QUESTION 3
Refer to the exhibit

You selected a group of servers for power capping changes and generated the Group Power Consumption graph that is shown in the exhibit.

What information will be displayed in the box that describes the red dot?

Exhibit:

VCEPlus



A. Peak Group Observed power
B. Maximum Power Utilization
C. Power Capping Initiation Point
D. Capped Group Power

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:

QUESTION 4
Which advanced setting activity for the Active Health System (AHS) can you use to set up a new server before putting the server into production?

A. Specify a number of days to keep log information
B. Download the entire AHS log
C. Clear the entire AHS log
D. Add administrator contact information to the system.

Correct Answer: C

QUESTION 5
What is needed to use Support Case Manager to submit support cases for hardware or software products? {Select two.)

A. registration for proactive and customized e-updates
B. a valid warranty ID or support contract ID
C. a registered account on HP Support Center
D. an HP Partner Portal ID
E. Insight Remote Support Advanced

Correct Answer: BC
Section: (none)
Explanation

Explanation/Reference:

QUESTION 6
You have successfully configured an environment for Online analysis. What should you do next to use Insight Control performance management to perform an Offline analysis?

A. Select the **Log** option from the Monitoring Administration menu.
B. Select the dates to use to begin collecting the performance data
C. Add the Offline Analysis license to the iLO Management Engine
D. Repeat the process for Online analysis but choose Offline options

Correct Answer: D
Section: (none)
Explanation

Explanation/Reference:
Page 268 Student Guide HP SIM V7

QUESTION 7
What does the icon "?" indicate in the Display column for Insight Control performance management? (Select two.)

VCEPlus

A. SNMP is not property configured
B. Not enough data samples have been collected
C. Insight Control has not been installed
D. The server has not been discovered by HP SIM
E. System performance has undefined errors

Correct Answer: AB
Section: (none)
Explanation

Explanation/Reference:

QUESTION 8
In a blade environment that does not currently have HP Systems Insight Manager (HP SIM) installed, where can you collectively view server status information for an entire enclosure?

A. Onboard Administrator
B. System Management Homepage
C. Insight Control
D. BladeSystem Integrated Manager

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:

QUESTION 9
You plan to use the iLO Management Engine to register a Proliant server for monitoring by Insight Remote Support (IRS). Which registration information do you need? (Select two.}

A. IRS server host name or IP address
B. IRS server port number
C. authentication credentials for remote support
D. DNS server IP address
E. local server host name or IP address

Correct Answer: AB
