Number: MB-310.

Passing Score: 800

Time Limit: 120

File Version: 1.0

**Exam Code: MB-310**

**Exam Name: Microsoft Dynamics 365 for Finance and Operations, Financials**

02 - Set up and configure financial management

Case study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Background

Fourth Coffee is a coffee and supplies manufacturer based in Seattle. The company recently purchased CompanyA, based in the United States, and CompanyB, based in Canada, in order to increase production of their award-winning espresso machine and distribution of their dark roast coffee beans, respectively.

Fourth Coffee has set up CompanyA and CompanyB in their Dynamics 365 Finance and Operations environment to gain better visibility into the companies' profitability. CompanyA and CompanyB will continue to operate as subsidiaries of

Fourth Coffee, but all operational companies will be consolidated under Fourth Coffee Holding Company in US dollars (USD) for reporting purposes.

The current organizational chart is shown below:

Current environment

Systemwide setup

Dynamics 365 Finance in Microsoft Azure is used to manage the supply chain, retail, and financials.

All companies share a Chart of Accounts.

Two dimensions are used: Department and Division.

Budgeting is controlled at the department level.

Customers and vendors are defined as two groups: Domestic and International.

Mandatory credit check is set to No.

Consolidate online is used for the consolidation of all companies.

International main accounts are subject to foreign currency revaluation.

The purchasing budget is used to enforce purchasing limits.

General ledger accounts

Account numbers	Account description
1200	Domestic Accounts Receivable (USD)
1201	International Accounts Receivable (Canadian dollars [CAD])
2000	Domestic Accounts Payable (USD)
2001	International Accounts Payable (CAD)

Fourth Coffee

The base currency is USD.

Three item groups are used: coffee, supplies, and nonstock.

The standard sales tax method is used.

Acquiring fixed assets requires a purchase order.  
All customer payment journals require a deposit slip.  
CustomerX is a taxable company.  
CustomerY is a tax-exempt company.  
CustomerZ is a taxable company.  
VendorA is a Colombian supplier of coffee beans and belongs to the international vendor group.  
VendorB is a Peruvian supplier of coffee machine filters and belongs to the international vendor group.  
VendorC is a Texas supplier of espresso valves and belongs to the domestic vendor group.  
CompanyA  
The base currency is USD.  
It consists of a marketing department and a digital division.  
A 4-5-4 calendar structure is used.  
The standard sales tax method is used.  
CompanyB  
The base currency is CAD.  
The conditional sales tax method is used.  
Requirements  
Reporting  
A consolidated Fourth Coffee financial report is required in USD currency.  
Fourth Coffee and its subsidiaries need to be able to report sales by item type.  
Year-end adjustments need to be reported separately in a different period to view financial reporting inclusive and exclusive of year-end adjustments.  
Issues  
User1 observes that a General journal was used in error to post to the Domestic Accounts Receivable trade account.  
User2 has to repeatedly reclassify vendor invoice journals in Fourth Coffee Company that are posted to the marketing department and digital division.  
When User3 posts an Accounts receivable payment journal, a deposit slip is not generated.  
User4 observes an increase in procurement department expenses for supplies.  
User5 observes that sales tax is not calculating on a sales order for CustomerZ.  
User6 observes that sales tax is calculating for CustomerY.  
User7 observes that the sales tax payment report is excluding posted invoice transactions.  
User8 in CompanyA attempts to set up the sales tax receivable account on the sales tax posting form.  
User9 in CompanyA needs to purchase three tablets by using a purchase order and record the devices as fixed assets.  
CustomerX requires a credit check when making a purchase and is currently at their credit limit.

### QUESTION 1

You need to correct the sales tax setup to resolve User5's issue.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Populate the sales tax code on the sales order line.
- B. Assign the sales tax group to CustomerY.
- C. Assign the relevant sales tax code to both the sales tax and item sales tax groups.
- D. Populate the item sales tax group field on the sales order line.
- E. Populate the sales tax group field on the sales order line.

**Correct Answer: C, D, E**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/indirect-taxes-overview>

**QUESTION 2**

You need to troubleshoot the reporting issue for User7.  
Why are some transactions being excluded?

- A. User7 is running the report in CompanyB.
- B. User7 is running the report in CompanyA.
- C. The report is correctly excluding CustomerY transactions.
- D. The report is correctly excluding CustomerZ transactions.

**Correct Answer: C**

**Section:**

**QUESTION 3**

You need to configure settings to resolve User8's issue.  
What should you select?

- A. a main account in the sales tax payable field
- B. a main account in the settlement account field
- C. the Conditional sales tax checkbox
- D. the Standard sales tax checkbox

**Correct Answer: B**

**Section:**

**QUESTION 4**

You need to view the results of Fourth Coffee Holding Company's consolidation.  
Which three places show the results of financial consolidation? Each correct answer presents a complete solution.  
NOTE: Each correct selection is worth one point.

- A. a financial report run against the company Fourth Coffee
- B. a trial balance in the Fourth Coffee Holding Company
- C. a trial balance in the company Fourth Coffee
- D. a financial report run against the Fourth Coffee Holding Company
- E. the consolidations form in Fourth Coffee Holding Company

**Correct Answer: B, D, E**

**Section:**

**QUESTION 5**

You need to configure the system to resolve User8's issue.  
What should you select?

- A. the Standard sales tax checkbox
- B. the Conditional sales tax checkbox
- C. a main account in the settlement account field

D. a main account in the sales tax payable field

**Correct Answer: C**

**Section:**

**QUESTION 6**

HOTSPOT

You need to configure settings to resolve User1's issue.

Which settings should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Hot Area:**

**Answer Area**

Requirement	Setting
Establish account 1200 as a system-generated trade account.	<div><div></div><div>Do not allow manual entry</div><div>Balance control</div><div>Posting type – vendor balance</div></div>

QUESTION 7

DRAG DROP

You need to assist User3 with generating a deposit slip to meet Fourth Coffee's requirement.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Select and Place:

Actions	Answer Area
Select the <b>use a deposit slip</b> check box.	
Enter a transaction type.	
Select <b>manage deposits</b> on the bank account form.	
Enter the journal line with account and offset account and payment reference.	
Select <b>Deposit slip</b> from the functions menu and select <b>ok</b> .	
Post the journal.	

Correct Answer:

Actions	Answer Area
	Enter the journal line with account and offset account and payment reference.
	Select the <b>use a deposit slip</b> check box.
Select <b>manage deposits</b> on the bank account form.	Enter a transaction type.
	Post the journal.
	Select <b>Deposit slip</b> from the functions menu and select <b>ok</b> .

### QUESTION 9

HOTSPOT

You need to prevent a reoccurrence of User2's issue.

How should you configure the system? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer Area****Requirement****Configuration**

Configure valid dimensions for Fourth Coffee.

- Set up account structure excluding the marketing department and digital division.
- Set up financial dimension set excluding the marketing department and digital division.
- Set up account structure including the marketing department and digital division.
- Set up financial dimension set including the marketing department and digital division.

Configure valid dimensions for CompanyA.

- Set up account structure excluding the marketing department and digital division.
- Set up financial dimension set excluding the marketing department and digital division.
- Set up account structure including the marketing department and digital division.
- Set up financial dimension set including the marketing department and digital division.

Assign valid dimensions.

- Assign relevant account structure to the legal entity ledger.
- Configure relevant financial dimension set in the legal entity.
- Set up posting definitions.

### 03 - Set up and configure financial management

#### Case study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

#### To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

#### Background

Munson's Pickles and Preserves Farm grows and distributes produce, jellies, and jams. The company's corporate headquarters is located in Dallas, TX. Munson's has one operations center and seven regional distribution centers in the United States.

The company has two wholly owned subsidiaries that operate in Canada. The Canadian entity owns an entity in France.

Munson's plans to expand into Latin America by purchasing the last 25 percent of a subsidiary that they own in Costa Rica. This process is expected to complete within the next two years.

The company plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain to meet their growing business needs.

Current environment. General

Munson's uses a mix of internally-developed legacy systems that handle their finance and distribution activities. The company has an isolated CRM system.

Both Canadian subsidiaries have two departments: marketing and operations.

Financial reporting is difficult due to data residing in disparate systems.

Financial reporting is currently performed by using Microsoft Excel.

Pre-orders in the current system are difficult to track because the order management system is not integrated with the finance system.

Pickle sales post to one revenue account, but this does not allow for targeted reporting by pickle cut and type.

Current environment. Organization

The following chart shows Accounting/Reporting Currencies and Tax ID, if applicable.

Typically, vendor invoices are received prior to receipt of product.

The following fixed assets are sold for a loss:

BUILD-100

At the regional distribution centers, the value for physical inventory does not match the inventory in the financial system.

Munson's rents their corporate office. Rent is not paid by purchase order. Rent is due once a quarter.

Allocations are performed manually.

Barrels are inventoried by site and warehouse.

Munson's has multiple depreciation and tax books for all of their fixed asset equipment.

Budgets are posted at the department level for each legal entity.

Requirements. Sales

Customers should be able to pre-order for fall release of pickles.

Three-way matching must be enforced for all purchases.

Fixed asset sale transactions require a ledger account entered at the time of transaction.

Fixed assets purchased must be automatically created in fixed asset module. This includes inventory items and write in purchase orders/non-inventoried items.

One dollar from every sale needs must be tracked and donated at the end of each month to a charitable organization.

Purchasing budgets must be enforced at the main account level.

Requirements. Finances

Accounts payable must be able to enter vendor invoices on the day they were received to be settled against when product is received.

Accounts payable must be able to enter vendor invoices to accrue expense without specifying a purchase order at the time of entry.

Postage expenses must be split evenly across the regional distribution centers automatically.

Administrative expenses must be distributed across the regional distribution centers by percentage of fulfillment orders monthly.

Pickling machines depreciation must be uniquely recorded for visibility but not post to the ledger.

Issues

During implementation testing, User1 indicates that after packing slips are generated for purchase orders, there are no ledger postings.

User2 indicates that fixed assets purchased on a purchase order do not show up in the Fixed Assets module.

User3 reports that they are seeing inconsistent application of the one-dollar donation from all sales orders.

User4 in the Canadian subsidiary is able to purchase supplies for marketing despite exceeding the marketing department budget.

User5 reports that when purchasing a non-inventoried computer, the system is automatically assigning it to the buildings fixed asset group.

## QUESTION 1

You need to configure system functionality for pickle type reporting.

What should you use?

- A. item model groups
- B. item groups
- C. procurement category hierarchies

- D. financial dimensions
- E. procurement categories

**Correct Answer: B**

**Section:**

### **QUESTION 2**

You need to configure the regional distribution centers.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Configure a site
- B. Associate the financial dimension to the site
- C. Configure a financial dimension
- D. Configure a legal entity
- E. Associate the legal entity to the site

**Correct Answer: A, B, C**

#### Background

Alpine Ski House has three partially owned franchises and 10 fully owned resorts throughout the United States and Canada. Alpine Ski House's percentage ownership of the franchises is between two and 10 percent.

Alpine Ski House is undergoing an implementation of Dynamics 365 Finance and Dynamics 365 Supply Chain Management to transform their financial management and logistics capabilities across the franchises. Implementation is complete for Alpine Ski House's corporate offices, two US franchises, and one Canadian franchise. The remaining franchises are in varying stages of the implementation. Two new resort projects are in the budget planning stages and will open in the next fiscal year.

#### Current environment

##### Organization and general ledger

Each franchise is set up as a legal entity in Dynamics 365 Finance.

Alpine Ski House Corporate uses financial dimensions for their fully owned resorts.

Each resort is a financial dimension named resort.

Each fully owned resort has two divisions: marketing and operations.

Only Profit and Loss account postings require the division dimension.

Corporate handles the advertising and administration of the fully owned resorts.

Corporate uses Dynamics 365 Project Management and Accounting to manage construction of new resorts.

##### Budgeting

Organizational budgeting is decentralized but rolls up to one organizational corporate budget.

Each resort manager performs budgeting in Dynamics 365 Finance.

Budget preparation begins this month. All operational resorts will submit their budgets in two weeks.

##### Sales and tax

Sales tax is configured and used by all resorts that operate in the United States.

You configure one US sales tax vendor account and assign the vendor account to the settlement periods for reporting.

You use accounts receivable charges to track donations.

##### Existing purchasing contracts

Each franchise resort has an individual contract with a local supplier of their choosing to purchase at least \$10,000 worth of suppliers during the calendar year.

The franchise resorts in one US state receive a two percent discount on meat and vegetable purchases in excess of \$8,000 per year.

A franchise resort in Utah has agreed to purchase 1,000 units of beef at market price from a local supplier.

Alpine Ski House uses a vendor collaboration portal to track purchase orders and requests for quotes.

Vendors request access to the vendor collaboration portal by using a workflow which runs on a nightly schedule.

##### Intercompany setup

Vendor123 resides in US franchise Company1 and is set up for intercompany transactions. Customer345 resides in Canada franchise Company1 and is set up for intercompany transactions.

#### Requirements

##### Franchises

Each franchise must pay two percent of monthly sales to Alpine Ski House Corporate.

Each franchise must report their own financials to Alpine Ski House Corporate monthly.

US franchises require a three-way-match on all purchases, with a 1-percent price tolerance.

Canadian franchises require a three-way-match on all purchases except paper products, which have a 10-percent price tolerance.

##### Corporate

Advertising costs must be balanced across the 10 resorts monthly. These costs must be split across the 12 resorts once construction of the final two resorts is completed.

Administration costs must be split across the 10 resorts proportional to the amount of sales generated.

One percent of all pack and individual ski pass sales must be donated quarterly to an environmental protection organization.

The finance department must be able to see purchasing contracts and discounts for vendors based on volume spend.

##### Employees

All employee expense reports that contain the word entertainment must be reviewed for audit purposes. If a journal is posted incorrectly, the entire journal and not just the incorrect line must be fully reversed for

audit purposes.

#### Resorts

All resorts must use Dynamics 365 Finance for budgeting and must first be approved by the regional manager. Purchased fixed assets must automatically be acquired at product receipt.

#### Issues

User1 reports that irrelevant dimensions display in the drop down when entering a General journal.

User2 reports that dimension 00 is being used for all balance sheet accounts.

User3 tries to generate the quarterly sales tax liability payment for a specific state but does not see any payables available for that state's vendor.

User4 receives a call from a vendor who cannot access the vendor collaboration portal but needs immediate access.

User5 notices a large amount of entertainment expenses being posted without an audit review.

User6 needs to have visibility into the increase in budget that is necessary to staff the two new resorts opening next year.

User7 needs to use Dynamics 365 Finance for situational budgeting planning with the ability to increase and decrease the existing plans by certain percentages.

User8 made a mistake while posting a 1,000-line journal and reverses the entire journal but cannot find the lines that included errors during the reversal.

User9 made a mistake while posting a 55-line journal and reverses the entire journal.

User10 realizes that the purchase of five new computers did not acquire five new fixed assets upon receipt.

#### QUESTION 1

You need to adjust the sales tax configuration to resolve the issue for User3.

What should you do?

- A. Create multiple settlement periods and assign them to the US tax vendor.
- B. Create multiple sales tax remittance vendors and assign them to the settlement period.
- C. Run the payment proposal to generate the sales tax liability payments.
- D. Create a state-specific settlement period and assign the US tax vendor to the settlement period.

**Correct Answer: D**

**Section:**

#### QUESTION 2

You need to determine the cause of the issue that User1 reports.

What are two possible causes for the issue? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. The account structure is in draft status.
- B. The financial dimensions were created in the incorrect legal entity.
- C. User1's security is incorrectly set up.
- D. The account structure has an asterisk for all dimensions.
- E. The account structure has quotations for all dimensions.

**Correct Answer: D, E**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/configure-account-structures>

#### QUESTION 3

DRAG DROP

You need to configure ledger allocations to meet the requirements.

What should you configure? To answer, drag the appropriate setups to the correct requirements. Each setup may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.  
NOTE: Each correct selection is worth one point.

01 - Implement accounts receivable, credit, collections, and revenue recognition

QUESTION 1

A client uses Dynamics 365 Finance for accounts receivable.  
You need to configure the method of payment to enforce the accounts receivable clerk to enter the wire number for the received electronic payment.  
Which item should you set up as mandatory?

- A. Select bank transaction type
- B. Select payment reference
- C. Select Payment ID
- D. Select Deposit slip

Correct Answer: B

Section:

QUESTION 2

A company has many customers who are not paying invoices on time.

You need to use the collection letter functionality to manage customer delinquencies.  
What are two possible ways to achieve the goal? Each correct answer presents part of the solution.  
NOTE: Each correct selection is worth one point.

- A. Cancel the collection letters after they are created and posted.
- B. Print all of the collection letters.
- C. Delete the collection letters after posting when an error occurs.
- D. Post the collection letters.

**Correct Answer: B, D**

**Section:**

**Explanation:**

Reference: <http://d365tour.com/en/microsoft-dynamics-d365o/finance-d365fo-en/collection-letters/>

### QUESTION 3

A company plans to allocate revenue across occurrences by using recognition basis.  
Which recognition basis can you use?

- A. Mid-month split
- B. first of month
- C. Monthly by dates
- D. Monthly

**Correct Answer: D**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/finance/accounts-receivable/revenue-recognition-setup>

### QUESTION 4

#### SIMULATION

You are a functional consultant for Contoso Entertainment System USA (USMF).  
You plan to run several reports in USMF that list all the write-off transactions.  
You need to replace the write-off reason used by the system for USMF to use a reason of "Bad debts."  
To complete this task, sign in to the Dynamics 365 portal.

A.

**Correct Answer: A**

**Section:**

**Explanation:**

Answer: A

Explanation:

You need to add a write-off reason for USMF and set it as the default.  
Go to Navigation pane > Modules > Credit and collections > Setup > Accounts receivable parameters.  
Click the Collections tab.

Click the Edit icon in the Write-Off section.  
Add a new Write-Off reason if it doesn't exist.  
Tick the "Default" checkbox next to the new Write-Off reason.  
Click the Save button to save the changes.

#### QUESTION 5

##### DRAG DROP

A client observes that some customers are late paying their invoices. The client wants to use the Credit and Collections functionality to send collection letters to customers. You need to configure the system to support collection letter functionality and processing. In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

##### Select and Place:

Actions	Answer Area
Post the collection letter	
Link the collection letter sequence to the customer posting profile	
Set up the Form Notes in the Credit and collections module	
Define the collection letter sequence	
Generate the collection letter	

##### Correct Answer:

Actions	Answer Area
	Set up the Form Notes in the Credit and collections module
	Define the collection letter sequence
	Link the collection letter sequence to the customer posting profile
	Generate the collection letter
	Post the collection letter

## QUESTION 6

### HOTSPOT

A company sells goods to a customer. You enter an invoice for the customer on June 25. The invoice is eligible for a cash discount of two percent if it is paid in five days, and a discount of one percent if it paid in 14 days.

You need to create a payment journal when the invoices are settled on specific dates.

Which setup options should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer Area**

Payment date	Settlement amount
June 29	<div><div></div><div>The payment for invoice TH10 is \$1.000.00. No cash discount is taken The payment for invoice TH10 is \$980.00. A cash discount of 2 percent is taken The payment for invoice TH10 is \$990.00. A cash discount of 1 percent is taken</div></div>
July 1	<div><div></div><div>The payment for invoice TH10 is \$990.00. A cash discount of 1 percent is taken The payment for invoice TH10 is \$1.000.00. No cash discount is taken The payment for invoice TH10 is \$980.00. A cash discount of 2 percent is taken</div></div>

Answer Area:

**Answer Area**

QUESTION 8

## HOTSPOT

A company has delinquent customers.

You need to configure Dynamics 365 for Finance and Operations to meet the following requirements:

Send communication to the customers detailing their past-due invoices.

Use the system to automatically calculate a late charge.

Create a group of customers for a collection agent to monitor.

View a list of customers with colored indicators of a customer's payment status.

You need to associate the correct system functionality to manage delinquent customers based on these business requirements.

Which functionality should you use? To answer, select the appropriate configuration in the answer area.

NOTE: Each correct selection is worth one point.

## 03 - Implement accounts receivable credit collections and revenue recognition

Case study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Background

Munson's Pickles and Preserves Farm grows and distributes produce, jellies, and jams. The company's corporate headquarters is located in Dallas, TX. Munson's has one operations center and seven regional distribution centers in the United States.

The company has two wholly owned subsidiaries that operate in Canada. The Canadian entity owns an entity in France.

Munson's plans to expand into Latin America by purchasing the last 25 percent of a subsidiary that they own in Costa Rica. This process is expected to complete within the next two years.

The company plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain to meet their growing business needs.

Current environment. General

Munson's uses a mix of internally-developed legacy systems that handle their finance and distribution activities. The company has an isolated CRM system.

Both Canadian subsidiaries have two departments: marketing and operations.

Financial reporting is difficult due to data residing in disparate systems.

Financial reporting is currently performed by using Microsoft Excel.

Pre-orders in the current system are difficult to track because the order management system is not integrated with the finance system.

Pickle sales post to one revenue account, but this does not allow for targeted reporting by pickle cut and type.

Current environment. Organization

The following chart shows Accounting/Reporting Currencies and Tax ID, if applicable.

Typically, vendor invoices are received prior to receipt of product.

The following fixed assets are sold for a loss:

BUILD-100

At the regional distribution centers, the value for physical inventory does not match the inventory in the financial system.

Munson's rents their corporate office. Rent is not paid by purchase order. Rent is due once a quarter.

Allocations are performed manually.

Barrels are inventoried by site and warehouse.

Munson's has multiple depreciation and tax books for all of their fixed asset equipment.

Budgets are posted at the department level for each legal entity.

Requirements. Sales

Customers should be able to pre-order for fall release of pickles.

Three-way matching must be enforced for all purchases.

Fixed asset sale transactions require a ledger account entered at the time of transaction.

Fixed assets purchased must be automatically created in fixed asset module. This includes inventory items and write in purchase orders/non-inventoried items.

One dollar from every sale needs must be tracked and donated at the end of each month to a charitable organization.

Purchasing budgets must be enforced at the main account level.

Requirements. Finances

Accounts payable must be able to enter vendor invoices on the day they were received to be settled against when product is received.

Accounts payable must be able to enter vendor invoices to accrue expense without specifying a purchase order at the time of entry.

Postage expenses must be split evenly across the regional distribution centers automatically.

Administrative expenses must be distributed across the regional distribution centers by percentage of fulfillment orders monthly.

Pickling machines depreciation must be uniquely recorded for visibility but not post to the ledger.

## Issues

During implementation testing, User1 indicates that after packing slips are generated for purchase orders, there are no ledger postings.

User2 indicates that fixed assets purchased on a purchase order do not show up in the Fixed Assets module.

User3 reports that they are seeing inconsistent application of the one-dollar donation from all sales orders.

User4 in the Canadian subsidiary is able to purchase supplies for marketing despite exceeding the marketing department budget.

User5 reports that when purchasing a non-inventoried computer, the system is automatically assigning it to the buildings fixed asset group.

### QUESTION 1

You need to recommend a solution to prevent User3's issue from recurring.

What should you recommend?

- A. Configure automatic charge codes.
- B. Create a service item.
- C. Configure a sales order template.
- D. Create a procurement category.

**Correct Answer: A**

**Section:**

### QUESTION 2

You need to configure Accounts Receivable to take pre-orders.

Which feature should you use?

- A. Settle cloud transactions
- B. Accounting source explorer
- C. Settle open transactions
- D. Customer aging report
- E. Voucher transactions

**Correct Answer: C**

01 - Manage budgeting

QUESTION 1

You are configuring budgeting components in Dynamics 365 Finance.

You need to configure multiple budgets.

What are three budgeting options you can use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Cost management budget, including Production and Resource groups
- B. Sales budget, including Campaigns and Events
- C. Workforce budget, including Compensation groups and Positions
- D. Project budget, including Items and Fees

E. Ledger budget, including Revenue and Expense types

**Correct Answer: C, D, E**

**Section:**

#### **QUESTION 2**

A client is using the budget planning process in Dynamics 365 Finance.

Your client requires the ability to plan for a one-year, three-year, and five year-budget.

You need to configure the various year length options to be used in the budgeting module.

What should you do?

- A. Configure budget control
- B. Configure budget codes
- C. Configure budget cycles
- D. Configure budget allocation terms

**Correct Answer: B**

**Section:**

#### **QUESTION 3**

A company uses Dynamics 365 Finance to manage budgets.

You need to reallocate funds during the year.

Which budget code should you use?

- A. Carry-forward
- B. Zero-based
- C. Pre-encumbrance
- D. Transfer

**Correct Answer: D**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/finance/budgeting/basic-budgeting-overview-configuration>

#### **QUESTION 4**

A company plans to use Dynamics 365 Finance.

You need to configure basic budgeting.

Which set of actions must you perform?

- A. Define a budget journal
  - Define budgeting parameters
  - Define budgeting dimensions
  - Create budget models and codes
  - Define number sequences
- B. Define budget journal exchange rate types
  - Define budgeting parameters and number sequences

- Define budgeting dimensions
- Create budget models
- Define budget codes
- C. Define a budget journal
  - Define budgeting parameters and number sequences
  - Define budgeting dimensions
  - Create budget models and codes
  - Setup budget allocation termsbudget models and codes
  - Setup budget allocation terms
- D. Define budget exchange rate types
  - Define budgeting parameters and number sequences
  - Define financial dimensions
  - Create budget models
  - Define budget codes

**Correct Answer: B**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/learn/modules/configure-use-basic-budgeting-budget-control-dyn365-finance/4-overview>

#### QUESTION 5

Note: This question-is part of a series of questions that present the same scenario. Each question-in the series contains a unique solution that might meet the stated goals. Some question-sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question-in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is preparing to complete yearly budgets.

The company plans to use the Budget module in Dynamics 365 Finance for budget management.

You need to create the new budgets.

Solution: Combine budgets from multiple legal entities to a master budget.

Does the solution meet the goal?

A. Yes

B. No

**Correct Answer: B**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/unified-operations/financials/budgeting/budget-planning-overview-configuration>

#### QUESTION 6

Note: This question-is part of a series of questions that present the same scenario. Each question-in the series contains a unique solution that might meet the stated goals. Some question-sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question-in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is preparing to complete yearly budgets.

The company plans to use the Budget module in Dynamics 365 Finance for budget management.

You need to create the new budgets.

Solution: Create budget plans for multiple scenarios.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: A**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/unified-operations/financials/budgeting/budget-planning-overview-configuration>

#### **QUESTION 7**

Note: This question-is part of a series of questions that present the same scenario. Each question-in the series contains a unique solution that might meet the stated goals. Some question-sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question-in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is preparing to complete yearly budgets.

The company plans to use the Budget module in Dynamics 365 Finance for budget management.

You need to create the new budgets.

Solution: Create budget plans to define the revenues for a budget.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/unified-operations/financials/budgeting/budget-planning-overview-configuration>

#### **QUESTION 8**

A customer uses Dynamics 365 Finance to manage budgets.

You review a customer's budget funds available calculation and discover that the budget amounts posted two weeks ago are not reflected in the budget control check on a purchase order.

You verify that budget control is set to active.

You need to determine why the budget posted two weeks ago is not reflecting correctly.

What should you do?

- A. Verify that available budget funds are configured appropriately.
- B. Post a budget transfer to add the correct funds.
- C. Verify whether budget plans are still in draft status.
- D. Compare the budget control active date to the date of the posted register entries to verify that it was active at the time of posting.

**Correct Answer: D**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/finance/budgeting/budget-control-overview-configuration>

### QUESTION 9

A company configures budget controls at the beginning of the year.

Which three budget control transaction actions occur when the budget control is turned off mid-year. Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Activities are unrecorded for budget control purposes.
- B. Budget register entries that have been posted after budget control is turned off will not be considered for budget control.
- C. Posted documents might incorrectly reflect any relieving amounts or balances in inquiries and reports that are related to budget control.
- D. Budget checks are performed.
- E. You can view the budget reporting through financial reports.

**Correct Answer: A, B, C**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/finance/budgeting/budget-control-overview-configuration>

### QUESTION 10

You are setting up the yearly budget for an organization for the year 2019.

You need to set up the budget register entries.

Which two fields must be set up when creating register entries? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Budget cycle
- B. Budget manager
- C. Budget code
- D. Budget model

**Correct Answer: C, D**

**Section:**

### QUESTION 11

You are configuring the basic budgeting for a Dynamics 365 Finance environment.

You need to configure the types of entries allowed.

Which two configurations can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. The budget register entry journals require both Expense and Revenue amount types.
- B. Budget register entry line needs a main account and amount to be valid.
- C. Budget register entry journals must be allocated across all fiscal periods.
- D. Budget register entry lines must select only one account structure.
- E. The budget register entries can contain either Expense or Revenue amount types.

**Correct Answer: D, E**

**Section:**

**QUESTION 12**

A company is preparing to complete yearly budgets.  
The company plans to use the Budget module in Dynamics 365 Finance for budget management.  
You need to create the new budgets.  
What should you do?

- A. Create budget plans for multiple scenarios.
- B. Create budget plans to define the revenues for a budget.
- C. Combine previous year budgets into a single budget.

**Correct Answer: A**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/financials/budgeting/budget-planning-overview-configuration>

**QUESTION 13**

DRAG DROP

You are creating a budget for an organization.  
The organization requires that allocations be performed automatically as part of budget planning.  
You need to invoke allocations at a specific budget planning stage.  
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Select and Place:**

**Actions**

Set up Task approval or the workflow

Add an automated task for budget planning stage allocation at the desired workflow stage

Create a stage allocation on the Budget planning configuration page

Create an allocation schedule on the Budget planning configuration page

**Answer Area**

⏪

⏩

✓

**Correct Answer:**

Actions	Answer Area
Set up Task approval or the workflow	Create an allocation schedule on the Budget planning configuration page
	Create a stage allocation on the Budget planning configuration page
	Add an automated task for budget planning stage allocation at the desired workflow stage

## 01 - Manage fixed assets

### QUESTION 1

An organization acquires a building.

You need to register and record the building as an asset building in Dynamics 365 Finance.

What are three possible ways to achieve the goal? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Select an account type of Fixed Asset and a transaction type of Acquisition with a General Journal
- B. Eliminate the project to a fixed asset
- C. Create a sales invoice to record and register the fixed asset

- D. Select an acquisition transaction type within a fixed asset journal
- E. Use the sales order process to acquire the asset

**Correct Answer: A, B, D**

**Section:**

#### **QUESTION 2**

You are the accounts receivable manager of an organization. The organization recently sold machinery to a customer. You need to register a transaction for the sale of the machinery by using a free text invoice for fixed assets. Which transaction type should you use?

- A. Acquisition
- B. Value adjustments
- C. Depreciation
- D. Disposal

**Correct Answer: D**

**Section:**

#### **QUESTION 3**

You are the controller for an organization. The company purchased six service trucks. You observe that your accountant set up Fixed assets - vehicles in the wrong fixed asset group. You need to achieve the following:

Change the fixed asset group so that the existing fixed asset transactions for the original fixed asset are canceled and regenerated for the new fixed asset.

Ensure that all books for the existing fixed asset are created for the new fixed asset. Any information that was set up for the original fixed asset is copied to the new fixed asset. Close the old fixed asset number in the old fixed assets group and create a new fixed asset number in the new fixed assets group. Ensure that the historical transactions are transferred to the new fixed asset. Ensure Historical Depreciation expense entries do not change.

What should you do?

- A. Reclassify the fixed asset
- B. Change the fixed asset group and keep the same fixed asset number
- C. Copy the fixed asset
- D. Transfer the fixed assets

**Correct Answer: A**

**Section:**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/financials/fixed-assets/tasks/reclassify-fixed-assets>

#### **QUESTION 4**

You are configuring the Fixed assets module for a Dynamics 365 Finance environment.

You need to create a fixed asset.

Which two settings are required? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. the property type
- B. the group

- C. the number sequence
- D. the type
- E. the name

Correct Answer: B, E

Section:

Explanation:

The type and number sequence are configured in the group so you don't need to enter those values.

QUESTION 5

HOTSPOT

You are the purchase manager of an organization. You purchase a laptop for your office for \$2,000. You plan to create a purchase order and acquire the new fixed asset through the purchase order at time of invoicing.

You set up the system as follows: Fixed assets are automatically created during product receipt or vendor invoice posting and the capitalization threshold for the computers group (COMP) is set to \$1,600.

You need to automatically create a fixed asset record when you post an acquisition transaction for the asset after you post the invoice.

How should you configure the fixed asset parameters to meet the criteria? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Criteria	Field configuration
Create a fixed asset from a purchase order.	<div><div></div><div>Select Allow asset acquisition from Purchasing.</div><div>Select Create asset during product receipt or invoice posting.</div><div>Select up the capitalization threshold amount.</div><div>Select Restrict asset acquisition posting to a user group.</div></div>
Enable acquisitions to occur when invoice is posted.	<div><div></div><div>Select Allow asset acquisition from Purchasing.</div><div>Select up the capitalization threshold amount.</div><div>Select Restrict asset acquisition posting to a user group.</div><div>Select Create asset during product receipt or invoice posting.</div></div>

Answer Area:

### Answer Area

#### Criteria

Create a fixed asset from a purchase order.

#### Field configuration

	▼
Select Allow asset acquisition from Purchasing.	
Select Create asset during product receipt or invoice posting.	
Set up the capitalization threshold amount.	
Select Restrict asset acquisition posting to a user group.	

Enable acquisitions to occur when invoice is posted.

	▼
Select Allow asset acquisition from Purchasing.	
Set up the capitalization threshold amount.	
Select Restrict asset acquisition posting to a user group.	
Select Create asset during product receipt or invoice posting.

### QUESTION 6

#### DRAG DROP

A client is implementing fixed assets in Dynamics 365 Finance.

You need to specify which parameters should be configured to meet the business requirements.

Which parameters meet the requirements? To answer, drag the appropriate parameters to the correct requirements. Each parameter may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

#### Select and Place:

#### Parameters

posting profile
depreciation profile
asset book

#### Answer Area

#### Requirement

Specify a depreciation account.

Specify a scrap account.

Track independent life cycle of asset.

#### Parameter

#### Correct Answer:

**Section:**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/dynamics365/finance/fixed-assets/tasks/set-up-fixed-asset-posting-profiles>

<https://docs.microsoft.com/en-us/dynamics365/finance/fixed-assets/set-up-fixed-assets>

**QUESTION 7**

**HOTSPOT**

You manage fixed assets in Dynamics 365 Finance.

You have the following requirements:

Purchase a fixed asset on a purchase order by using a procurement category.

Purchase a fixed asset on a purchase order by using an item number.

Post specific tax transactions for fixed assets by using a journal.

You need to associate process in the system with the corresponding business requirement.

Which actions should you perform? To answer, select the appropriate configuration in the answer area.

NOTE: Each correct selection is worth one point.

**Hot Area:**

## Answer Area

### Business requirement

Purchase a fixed asset on a purchase order by using a procurement category

### Process/configurations

	▼
Configure Business Rules for fixed asset determination	
Create a fixed asset purchasing policy	
Create a fixed asset hierarchy	
Create a default fixed asset group	

Purchase a fixed asset on a purchase order by using an item number

	▼
Select new fixed asset on purchase order line	
Select fixed asset financial dimension	
Create a fixed asset reference purchase order number	

Post specific tax transactions for fixed assets by using a journal

	▼
Create a journal and assign the tax posting layer	
Create a journal and assign a specific voucher sequence	
Use a fixed asset-specific sales tax code	
Use a fixed asset-specific sales tax group	

Answer Area:

## Answer Area

### Business requirement

Purchase a fixed asset on a purchase order by using a procurement category

Purchase a fixed asset on a purchase order by using an item number

Post specific tax transactions for fixed assets by using a journal

### Process/configurations

▼  
Configure Business Rules for fixed asset determination

Create a fixed asset purchasing policy

Create a fixed asset hierarchy

Create a default fixed asset group

▼  
Select new fixed asset on purchase order line

Select fixed asset financial dimension

Create a fixed asset reference purchase order number

▼

#### 02 - Manage fixed assets

##### Case study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

#### Background

Munson's Pickles and Preserves Farm grows and distributes produce, jellies, and jams. The company's corporate headquarters is located in Dallas, TX. Munson's has one operations center and seven regional distribution centers in the United States.

The company has two wholly owned subsidiaries that operate in Canada. The Canadian entity owns an entity in France.

Munson's plans to expand into Latin America by purchasing the last 25 percent of a subsidiary that they own in Costa Rica. This process is expected to complete within the next two years.

The company plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain to meet their growing business needs.

#### Current environment. General

Munson's uses a mix of internally-developed legacy systems that handle their finance and distribution activities. The company has an isolated CRM system.

Both Canadian subsidiaries have two departments: marketing and operations.

Financial reporting is difficult due to data residing in disparate systems.

Financial reporting is currently performed by using Microsoft Excel.

Pre-orders in the current system are difficult to track because the order management system is not integrated with the finance system.

Pickle sales post to one revenue account, but this does not allow for targeted reporting by pickle cut and type.

#### Current environment. Organization

The following chart shows Accounting/Reporting Currencies and Tax ID, if applicable.

Typically, vendor invoices are received prior to receipt of product.

The following fixed assets are sold for a loss:

#### BUILD-100

At the regional distribution centers, the value for physical inventory does not match the inventory in the financial system.

Munson's rents their corporate office. Rent is not paid by purchase order. Rent is due once a quarter.

Allocations are performed manually.

Barrels are inventoried by site and warehouse.

Munson's has multiple depreciation and tax books for all of their fixed asset equipment.

Budgets are posted at the department level for each legal entity.

#### Requirements. Sales

Customers should be able to pre-order for fall release of pickles.

Three-way matching must be enforced for all purchases.

Fixed asset sale transactions require a ledger account entered at the time of transaction.

Fixed assets purchased must be automatically created in fixed asset module. This includes inventory items and write in purchase orders/non-inventoried items.

One dollar from every sale needs must be tracked and donated at the end of each month to a charitable organization.

Purchasing budgets must be enforced at the main account level.

#### Requirements. Finances

Accounts payable must be able to enter vendor invoices on the day they were received to be settled against when product is received.

Accounts payable must be able to enter vendor invoices to accrue expense without specifying a purchase order at the time of entry.

Postage expenses must be split evenly across the regional distribution centers automatically.

Administrative expenses must be distributed across the regional distribution centers by percentage of fulfillment orders monthly.

Pickling machines depreciation must be uniquely recorded for visibility but not post to the ledger.

#### Issues

During implementation testing, User1 indicates that after packing slips are generated for purchase orders, there are no ledger postings.

User2 indicates that fixed assets purchased on a purchase order do not show up in the Fixed Assets module.

User3 reports that they are seeing inconsistent application of the one-dollar donation from all sales orders.

User4 in the Canadian subsidiary is able to purchase supplies for marketing despite exceeding the marketing department budget.

User5 reports that when purchasing a non-inventoried computer, the system is automatically assigning it to the buildings fixed asset group.

**QUESTION 1**

You need to identify the root cause for the error that User5 is experiencing.  
What should you check?

- A. Fixed asset rules
- B. Fixed asset determination rules
- C. Fixed asset posting profiles
- D. Fixed asset books
- E. Fixed asset depreciation profiles

**Correct Answer: B**  
**Section:**

**QUESTION 2**

DRAG DROP

You need to select the functionality to meet the requirement.  
Which features should you use? To answer, drag the appropriate features to the correct requirements. Each feature may be used once or not at all. You may need to drag the split bar between panes or scroll to view content.  
NOTE: Each correct selection is worth one point.

Select and Place:

Features

Posting layer - custom

Posting layer - current

Posting layer - tax

Answer Area

Requirements

Pickling machine depreciation

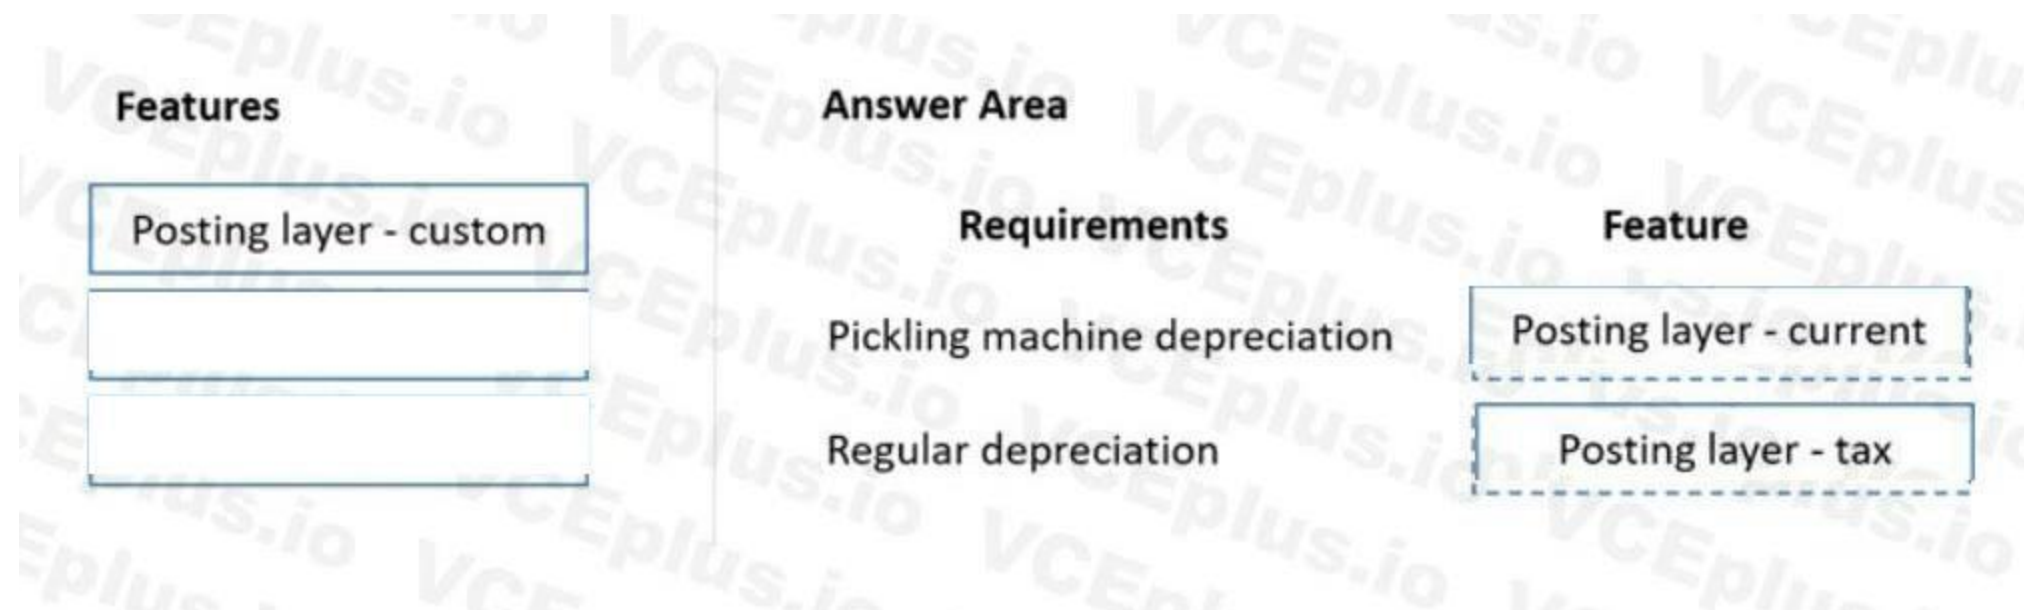

Regular depreciation

Feature

Feature

**Background**

Alpine Ski House has three partially owned franchises and 10 fully owned resorts throughout the United States and Canada. Alpine Ski House's percentage ownership of the franchises is between two and 10 percent.

Alpine Ski House is undergoing an implementation of Dynamics 365 Finance and Dynamics 365 Supply Chain Management to transform their financial management and logistics capabilities across the franchises. Implementation is complete for Alpine Ski House's corporate offices, two US franchises, and one Canadian franchise. The remaining franchises are in varying stages of the implementation. Two new resort projects are in the budget planning stages and will open in the next fiscal year.

**Current environment**

**Organization and general ledger**

Each franchise is set up as a legal entity in Dynamics 365 Finance.

Alpine Ski House Corporate uses financial dimensions for their fully owned resorts.

Each resort is a financial dimension named resort.

Each fully owned resort has two divisions: marketing and operations.

Only Profit and Loss account postings require the division dimension.

Corporate handles the advertising and administration of the fully owned resorts.

Corporate uses Dynamics 365 Project Management and Accounting to manage construction of new resorts.

**Budgeting**

Organizational budgeting is decentralized but rolls up to one organizational corporate budget.

Each resort manager performs budgeting in Dynamics 365 Finance.

Budget preparation begins this month. All operational resorts will submit their budgets in two weeks.

Sales and tax

Sales tax is configured and used by all resorts that operate in the United States.

You configure one US sales tax vendor account and assign the vendor account to the settlement periods for reporting.

You use accounts receivable charges to track donations.

Existing purchasing contracts

Each franchise resort has an individual contract with a local supplier of their choosing to purchase at least \$10,000 worth of suppliers during the calendar year.

The franchise resorts in one US state receive a two percent discount on meat and vegetable purchases in excess of \$8,000 per year.

A franchise resort in Utah has agreed to purchase 1,000 units of beef at market price from a local supplier.

Alpine Ski House uses a vendor collaboration portal to track purchase orders and requests for quotes.

Vendors request access to the vendor collaboration portal by using a workflow which runs on a nightly schedule.

Intercompany setup

Vendor123 resides in US franchise Company1 and is set up for intercompany transactions. Customer345 resides in Canada franchise Company1 and is set up for intercompany transactions.

Requirements

Franchises

Each franchise must pay two percent of monthly sales to Alpine Ski House Corporate.

Each franchise must report their own financials to Alpine Ski House Corporate monthly.

US franchises require a three-way-match on all purchases, with a 1-percent price tolerance.

Canadian franchises require a three-way-match on all purchases except paper products, which have a 10-percent price tolerance.

Corporate

Advertising costs must be balanced across the 10 resorts monthly. These costs must be split across the 12 resorts once construction of the final two resorts is completed.

Administration costs must be split across the 10 resorts proportional to the amount of sales generated.

One percent of all pack and individual ski pass sales must be donated quarterly to an environmental protection organization.

The finance department must be able to see purchasing contracts and discounts for vendors based on volume spend.

Employees

All employee expense reports that contain the word entertainment must be reviewed for audit purposes. If a journal is posted incorrectly, the entire journal and not just the incorrect line must be fully reversed for audit purposes.

Resorts

All resorts must use Dynamics 365 Finance for budgeting and must first be approved by the regional manager. Purchased fixed assets must automatically be acquired at product receipt.

Issues

User1 reports that irrelevant dimensions display in the drop down when entering a General journal.

User2 reports that dimension 00 is being used for all balance sheet accounts.

User3 tries to generate the quarterly sales tax liability payment for a specific state but does not see any payables available for that state's vendor.

User4 receives a call from a vendor who cannot access the vendor collaboration portal but needs immediate access.

User5 notices a large amount of entertainment expenses being posted without an audit review.

User6 needs to have visibility into the increase in budget that is necessary to staff the two new resorts opening next year.

User7 needs to use Dynamics 365 Finance for situational budgeting planning with the ability to increase and decrease the existing plans by certain percentages.

User8 made a mistake while posting a 1,000-line journal and reverses the entire journal but cannot find the lines that included errors during the reversal.

User9 made a mistake while posting a 55-line journal and reverses the entire journal.

User10 realizes that the purchase of five new computers did not acquire five new fixed assets upon receipt.

## QUESTION 1

You need to acquire the fixed assets that are associated with the purchase orders.

What should you do?

- A. Select the fixed asset checkbox on the invoice.
- B. Create the fixed assets in the fixed asset module and then acquire the asset.
- C. Create the fixed assets in the fixed asset module and then select the fixed asset checkbox on the product receipt.
- D. Reverse the product receipt and then repost it.

**Correct Answer: A**

**Section:**

**Explanation:**

Background

Fourth Coffee is a coffee and supplies manufacturer based in Seattle. The company recently purchased CompanyA, based in the United States, and CompanyB, based in Canada, in order to increase production of their award-winning espresso machine and distribution of their dark roast coffee beans, respectively.

Fourth Coffee has set up CompanyA and CompanyB in their Dynamics 365 Finance and Operations environment to gain better visibility into the companies' profitability. CompanyA and CompanyB will continue to operate as subsidiaries of

Fourth Coffee, but all operational companies will be consolidated under Fourth Coffee Holding Company in US dollars (USD) for reporting purposes.

The current organizational chart is shown below:

Current environment

Systemwide setup

Dynamics 365 Finance in Microsoft Azure is used to manage the supply chain, retail, and financials.

All companies share a Chart of Accounts.

Two dimensions are used: Department and Division.

Budgeting is controlled at the department level.

Customers and vendors are defined as two groups: Domestic and International.

Mandatory credit check is set to No.

Consolidate online is used for the consolidation of all companies.

International main accounts are subject to foreign currency revaluation.

The purchasing budget is used to enforce purchasing limits.

General ledger accounts

Account numbers	Account description
1200	Domestic Accounts Receivable (USD)
1201	International Accounts Receivable (Canadian dollars [CAD])
2000	Domestic Accounts Payable (USD)
2001	International Accounts Payable (CAD)

Fourth Coffee

The base currency is USD.

Three item groups are used: coffee, supplies, and nonstock.

The standard sales tax method is used.

Acquiring fixed assets requires a purchase order.

All customer payment journals require a deposit slip.

CustomerX is a taxable company.

CustomerY is a tax-exempt company.

CustomerZ is a taxable company.

VendorA is a Colombian supplier of coffee beans and belongs to the international vendor group.

VendorB is a Peruvian supplier of coffee machine filters and belongs to the international vendor group.

VendorC is a Texas supplier of espresso valves and belongs to the domestic vendor group.

CompanyA

The base currency is USD.

It consists of a marketing department and a digital division.

A 4-5-4 calendar structure is used.

The standard sales tax method is used.

CompanyB

The base currency is CAD.

The conditional sales tax method is used.

Requirements

Reporting

A consolidated Fourth Coffee financial report is required in USD currency.

Fourth Coffee and its subsidiaries need to be able to report sales by item type.

Year-end adjustments need to be reported separately in a different period to view financial reporting inclusive and exclusive of year-end adjustments.

Issues

User1 observes that a General journal was used in error to post to the Domestic Accounts Receivable trade account.

User2 has to repeatedly reclassify vendor invoice journals in Fourth Coffee Company that are posted to the marketing department and digital division.

When User3 posts an Accounts receivable payment journal, a deposit slip is not generated.

User4 observes an increase in procurement department expenses for supplies.

User5 observes that sales tax is not calculating on a sales order for CustomerZ.

User6 observes that sales tax is calculating for CustomerY.

User7 observes that the sales tax payment report is excluding posted invoice transactions.

User8 in CompanyA attempts to set up the sales tax receivable account on the sales tax posting form.

User9 in CompanyA needs to purchase three tablets by using a purchase order and record the devices as fixed assets.

CustomerX requires a credit check when making a purchase and is currently at their credit limit.

## QUESTION 1

You need to ensure that User9's purchase is appropriately recorded.

Which three steps should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Select a fixed asset group at the line level.

B. Set the new fixed asset toggle to yes at the line level.

- C. Enter three purchase order lines, enter quantity of 1.
- D. Enter one purchase order line, enter quantity of 3.
- E. Select a financial dimension at the line level.

Correct Answer: A, B, C

**QUESTION 2**

A company uses Microsoft Dynamics 365 finance to manage customer support contracts.

You need to validate a revenue recognition schedule for a customer,

in which two pages can you view the revenue recognition schedule? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. an invoiced sales order
- B. the revenue schedule details
- C. the revenue schedules
- D. an invoiced purchase order
- E. The revenue recognition schedule

**Correct Answer: A, E**

**Section:**

**QUESTION 3**

A company uses Microsoft Dynamics 365 Finance. You create revenue allocation schedules for items.

You need to link a revenue allocation schedule to an item.

Which two pages should you use? Each correct answer presents a complete solution

NOTE: Each correct selection is worth one point.

- A. Item posting profile
- B. Charges group
- C. Released item
- D. item group
- E. Revenue allocation journal

**Correct Answer: C, D**

**Section:**

**QUESTION 4**

A client wants general journals to be used only to post ledger-type transactions.

You need to set up journal configuration to achieve the requirement.

Solution: Set up posting restrictions on the general journal.

Does the solution meet the goal?

- A. Yes
- B. No

**Correct Answer: B**

**Section:**

**QUESTION 5**

A client wants general journals to be used only to post ledger-type transactions.

You need to set up journal configuration to achieve the requirement.

Solution: Set up default offset account on the journal name.

Does the solution meet the goal?

A. Yes

B. No

**Correct Answer: B**

**Section:**

#### **QUESTION 6**

A client warns general journals to be used only to post ledger-type Transactions.

You need to set up Journal configuration to achieve the requirement.

Solution: Set up the journal control to specify the account structure and ledger segment.

Does: The solution meet the goal?

A. Yes

B. No

**Correct Answer: A**

**Section:**

#### **QUESTION 7**

Your company uses Dynamics 365 Finance

All fixed assets are categorized by asset type. For example, office furniture is sequentially numbered.

Has the same service life, and uses the same depreciation deduction calculation.

You need to configure the system.

Which two parameters should you set up? Each correct answer presents part of the solution

NOTL Each correct selection is worth one point.

A. appreciation convention

B. derived book

C. deprecation profile

D. fixed asset group

**Correct Answer: C, D**

**Section:**

#### **QUESTION 8**

A cable and internet company implements Dynamics 365 Finance. The primary line of business for the company is internet services. The company also sells routers and modems to customers for an additional one-time cost.

You need to configure revenue recognition.

What should you configure?

A. Create the router and modem sales to post to deferred revenue.

B. Configure the internet service as essential

- C. Configure the internet service router, and modem as essential.
- D. Create a revenue schedule for the internet service, router, and modem

Correct Answer: D

**QUESTION 21**

DRAG DROP

A company uses the basic budgeting functionality in Dynamics 365 Finance. You are creating the budget in the system for the upcoming fiscal year. The company uses budget workflow approvals to process budget entries. The company plans to split a business unit named IT and Infrastructure into two business units: Business Applications and IT Infrastructure. You need to create the budget for the two business units based on 1.5 Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

In the Allocate to dimensions form, select the appropriate predefined allocation term for splitting the budget balance between both business units.

In the Transfer balances form, filter on the IT and Infrastructure business unit and enter a factor of 1.5 for the last fiscal year selection.

On the Budget register entry form, select the budget model corresponding to the new fiscal year.

Add a new line to select IT and Infrastructure with an Amount type expense and add a comment to explain that the business unit budget must be split between the business units Business Applications and IT Infrastructure.

In the Allocate to dimensions form, select the separate Business Applications and IT Infrastructure business units, and enter a factor of 1.5.

Submit the Budget register entry to the approval workflow.

Answer Area

Correct Answer:

Actions

In the Allocate to dimensions form, select the appropriate predefined allocation term for splitting the budget balance between both business units.

In the Transfer balances form, filter on the IT and Infrastructure business unit and enter a factor of 1.5 for the last fiscal year selection.

Answer Area

On the Budget register entry form, select the budget model corresponding to the new fiscal year.

Add a new line to select IT and Infrastructure with an Amount type expense and add a comment to explain that the business unit budget must be split between the business units Business Applications and IT Infrastructure.

In the Allocate to dimensions form, select the separate Business Applications and IT Infrastructure business units, and enter a factor of 1.5.

Submit the Budget register entry to the approval workflow.
