OEM Manufacturing and Deployment for Windows 10

Version 1.0

Exam A

QUESTION 1
HOTSPOT

You have a reference computer that runs Windows 10. The computer contains a provisioning package named Package1.ppkg. Package1.ppkg is located in C:\Packages\.

You plan to create an image of the reference computer.

You run sysprep.exe on the computer, and then you start the computer by using Windows Preinstallation Environment (Windows PE).

You need to ensure that the image uses the least amount of disk space possible.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

<https://www.vceplus.com/>

Hot Area:

Answer Area

dism.exe

	▼
/Add-ProvisioningPackage	
/Append-Image	
/Apply-CustomDataImage	

	▼
/Compact	
/SingleInstance	
/Verify	
/WIMBoot	

	▼	:C:\packages\package1.ppkg/ImagePath:C:\
/ApplyDrive		
/Configfile		
/Confirmtrustedfile		
/CustomDataImage		
/Skipplatformcheck		

Correct Answer:

Answer Area

dism.exe

	▼
/Add-ProvisioningPackage	
/Append-Image	
/Apply-CustomDataImage	

	▼
/Compact	
/SingleInstance	
/Verify	
/WIMBoot	

:C:\packages\package1.ppkg/ImagePath:C:\

	▼
/ApplyDrive	
/Configfile	
/Confirmtrustedfile	
/CustomDataImage	
/Skipplatformcheck

QUESTION 2

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements

Yes No

Scanstate.exe can capture configurations from an offline image of Windows.

Scanstate.exe can be run from Windows Preinstallation Environment (Windows PE).

Scanstate.exe can be configured to capture a single registry setting.

Correct Answer:

Answer Area

Statements

Yes No

Scanstate.exe can capture configurations from an offline image of Windows.

Scanstate.exe can be run from Windows Preinstallation Environment (Windows PE).

Scanstate.exe can be configured to capture a single registry setting.

Section: (none)

<https://docs.microsoft.com/en-us/windows/deployment/usmt/usmt-scanstate-syntax> **QUESTION 3**

You deploy Windows 10 and Microsoft Office 2016 to a test computer.

You plan to capture an image of the test computer, and then to deploy the image to computers that will be sold to your customers.

You need to ensure that when a customer first starts an Office application, the customer is prompted to try, buy, or activate Office.

What should you run on the test computer before the capture?

- A. officedeploymenttool.exe
- B. setup.exe/admin
- C. oemsetup.cmd Mode=OEM
- D. setup.exe/configure

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 4

HOTSPOT

You extract an image of Windows 10 in audit mode to a computer named Computer1.

You install an application named App1 on Computer1.

You need to create a siloed provisioning package of App1.

How should you create the package? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Tool to use to create the siloed provisioning package:

	▼
dism.exe	
Express Deployment Tool (EDT) for Windows 10	
scanstate.exe	
Windows Imaging and Configuration Designer (Windows ICD)	

File extension to use for the siloed provisioning package:

	▼
.msi	
.msu	
.ppkg	
.spp	

Correct Answer:
Section: (none)
Explanation

Explanation/Reference:
Explanation:

References: <https://docs.microsoft.com/en-us/windows-hardware/manufacture/desktop/add-desktop-apps-with-spps-sxs>

Answer Area

Tool to use to create the siloed provisioning package:

	▼
dism.exe	
Express Deployment Tool (EDT) for Windows 10	
scanstate.exe	
Windows Imaging and Configuration Designer (Windows ICD)	

File extension to use for the siloed provisioning package:

	▼
.msi	
.msu	
.ppkg	
.spp	

QUESTION 5

You have a computer named Computer1.

You deploy an image of Windows 10 to Computer1. You start Computer1 in audit mode, and then you install several device drivers.

You need to capture an image of Computer1.

Which tool should you use?

- A. Windows System Image Manager (Windows SIM)
- B. dism.exe
- C. Express Deployment Tool (EDT) for Windows 10
- D. scanstate.exe

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

Explanation:

References: <https://docs.microsoft.com/en-us/windows-hardware/manufacture/desktop/prepare-a-snapshot-of-the-pc-generalize-and-capture-windows-images-blue-sxs>

QUESTION 6

DRAG DROP

You are creating an image of Windows 10 for a new model of computers that will have Microsoft Office 2016 installed.

You install the Office Deployment Tool.

You need to install Office 2016. The solution must install Microsoft Word and Excel without installing any other Office applications.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer Area
Run <code>setup.exe</code> and specify the <code>/packager</code> parameter.	 
Create a Configuration.xml file.	
Run <code>setup.exe</code> and specify the <code>/configure</code> parameter.	
Run <code>setup.exe</code> and specify the <code>/download</code> parameter.	
Create an Install.json file.	

Correct Answer:

Actions	Answer Area
Run setup.exe and specify the /packager parameter.	Create a Configuration.xml file.
	Run setup.exe and specify the /download parameter.
	Run setup.exe and specify the /configure parameter.
Create an Install.json file.	

Section: (none)

QUESTION 7

You have an image of Windows 10.

You discover that files in the Windows Component Store are corrupt.

You need to repair the files in the component store.

What should you do?

- A. Run dism.exe and specify the /Cleanup-Image and the /RestoreHealth parameters.
- B. Run dism.exe and specify the /Cleanup-Image and the /StartComponentCleanup parameters.
- C. Run sfc.exe and specify the /scanfile and /offwindir parameters.
- D. Run sfc.exe and specify the /scannow parameter.

Correct Answer: A

Section: (none)

Explanation

Explanation:

QUESTION 8

You have a computer that runs Windows 10. The computer starts in UEFI mode and has a 64-bit processor.

You insert a USB key in the computer. The USB key has a drive letter of F.

You need to ensure that you can start the computer by using Windows Preinstallation Environment (Windows PE) from the USB key.

Which two commands should you run? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. makewinpemedia.cmd /UFD C:\WinPe F:
- B. makewinpemedia.cmd /ISO C:\WinPe F:
- C. copype.cmd amd64 C:\WinPe
- D. dism.exe /Export-Image /SourceImageFile:C:\WinPE\boot.wim/SourceIndex:1/DestinationImageFile:F:\boot.wim
- E. copype.cmd x86 C:\WinPe

Correct Answer: AE

Section: (none)

QUESTION 9

HOTSPOT

You have an image of Windows 10 Anniversary Update.

You plan to deploy the image to several new computers.

You must add Microsoft Office 2016 to the image.

You have a Configuration.xml file that will be used to deploy Office 2016. The contents of the file are shown in the following exhibit.

```
<Configuration>
  <Add OfficeClientEdition="32" Channel="Current">
    <Product ID="O365ProPlusRetail">
      <Language ID="en-us" />
      <Language ID="fr-fr" />
      <Language ID="de-de" />
      <ExcludeApp ID="Access" />
      <ExcludeApp ID="Groove" />
    </Product>
  </Add>
  <Display Level="Full" AcceptEULA="FALSE" />
  <Property Name="AUTOACTIVATE" Value="0" />
  <Property Name="FORCEAPPSHUTDOWN" Value="FALSE" />
  <Property Name="SharedComputerLicensing" Value="0" />
  <Property Name="PinIconsToTaskbar" Value="FALSE" />
</Configuration>
```

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

The user interface for the Office 2016 installation will be in [answer choice].

	▼
English	
French	
German	

Office 2016 will be installed in [answer choice] mode.

	▼
Interactive	
Shared Licensing	
Silent	

**Correct Answer:

QUESTION 10

You are preparing a push-button reset solution.

You extract a Windows Recovery Environment (Windows RE) boot image from an image of Windows 10.

You plan to use scanstate.exe to capture several Windows desktop applications.

Which two folders from the Windows Assessment and Deployment Kit (Windows ADK) should you include in the Windows RE build environment?

<https://www.vceplus.com/>

- A. User State Migration Tool (USMT) and Windows Preinstallation Environment
- B. Windows Preinstallation Environment and Common
- C. User State Migration Tool (USMT) and Windows Setup
- D. Windows Setup and Deployment Tools

Correct Answer: C

QUESTION 13

HOTSPOT

You have an image of Windows 10 named Image1.wim. Image1.wim is stored on a USB drive.

When a computer starts from the USB drive, the computer automatically starts an unattended installation of Windows 10.

You start a test computer from the USB drive.

After the deployment completes, you discover the following issues:

- A tile is missing from the Start menu. ▪

The label for volume C is incorrect.

You need to update the configuration files to resolve the issues.

Which configuration file should you modify to resolve each issue? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

To add the missing tile to the Start menu, modify:

	▼
Autounattend.xml	
LayoutModification.xml	
OobeE.xml	
Specialize.xml	

To change the label of volume C, modify:

	▼
Autounattend.xml	
LayoutModification.xml	
OobeE.xml	
Specialize.xml	

Correct Answer:

Answer Area

To add the missing tile to the Start menu, modify:

	▼
Autounattend.xml	
LayoutModification.xml	
OobeE.xml	
Specialize.xml	

To change the label of volume C, modify:

	▼
Autounattend.xml	
LayoutModification.xml	
OobeE.xml	
Specialize.xml

QUESTION 14

You have an image of Windows 10 that runs the Windows 10 Anniversary Update.

You plan to deploy the image to several new computers.

You add Microsoft Office 2016 to the image.

You need to ensure that when the image is deployed, users will see the Office 2016 tiles on the Start menu as shown in the exhibit. (Click the Exhibit tab.)

What should you do?

- A. Create a LayoutModification.xml file and save the file in the C:\Users\Default\AppData\Local\Microsoft\Windows\Shell\ folder.
- B. Modify the DefaultLayouts.xml file and save the file in the C:\Users\Default\AppData\Local\Microsoft\WindowsApps\ folder.
- C. Modify the DefaultLayouts.xml file and save the file in the C:\Users\Default\AppData\Local\Microsoft\Windows\Shell\ folder.
- D. Create a LayoutModification.xml file and save the file in the C:\Users\Default\AppData\Local\Microsoft\WindowsApps\ folder.

Correct Answer: A

Section: (none)

QUESTION 15

You are testing the push-button reset feature.

When you attempt to recover a computer, you discover that after each restart, the computer enters the Installing Windows phase.

You discover that a third-party antivirus application is captured in the customization package.

You need to modify the image to ensure that the push-button reset can complete successfully.
What should you do first?

- A. Run scanstate.exe and specify the /hardlink parameter.
- B. Copy the subfolders of the Windows Assessment and Deployment KIT (Windows ADK) files from the User State Migration Tool (USMT) and Windows Setup.
- C. In the Scanstate configuration file, modify the Migrate attribute for the antivirus application.
- D. Run dism.exe and specify the /Cleanup-Wim and /Cleanup-MountPoints parameters.

Correct Answer: B

Section: (none)

Explanation

QUESTION 17

You have a computer named Computer1 that runs Windows 10.

On Computer1, you have a DVD that contains the installation source files of Windows 10 Pro.

You open Windows System Image Manager as shown in the exhibit. (Click the Exhibit tab.)

You need to configure the answer file for Windows 10 by using Windows System Image Manager (Windows SIM).

What should you do first?

- A. Copy the installation files for Windows 10 to a hard disk.
- B. Create a catalog file (.clg).
- C. Select a distribution share.
- D. Select an image of Windows 10.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

Explanation:

References: [https://technet.microsoft.com/en-us/library/cc749317\(v=ws.10\).aspx](https://technet.microsoft.com/en-us/library/cc749317(v=ws.10).aspx)

QUESTION 18

You deploy an image of Windows 10 to several computers by using an answer file. The answer file contains the following information.

```
<OEMInformation>
  <Manufacturer>Fabrikam, Inc.</Manufacturer>
  <SupportHours>8 AM - 8 PM (CST) Monday - Friday</SupportHours>
  <SupportPhone>1-800-555-1212</SupportPhone>
  <SupportURL>HTTP://SUPPORT.FABRIKAM.COM</SupportURL>
  <Logo>%windir%\system32\oobe\info\fabrikam.bmp</Logo>
</OEMInformation>
```

You need to verify whether the support information is displayed in Windows.

What should you do?

- A. From the Start menu, open Msconfig.
- B. From the Settings app, click System, and then click About.
- C. From the Start menu, open Msinfo32.
- D. From Control Panel, open System.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

Explanation:

This is a tricky question. The support information is displayed in two places as defined in answers B and D. However, the logo will only be displayed in the System Control Panel applet.

QUESTION 19

You plan to deploy a Windows Preinstallation Environment (Windows PE) image.

Your company uses a graphical application to help installers choose an installation method for Windows 10.

The application must be started by using the following command.

```
installerGui.bat/Full/Interactive
```

You need to configure Windows PE to run the graphical application during startup.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a [boot loader] section in the INI file and add the command.
- B. Create a Boot.ini file in the root folder of the image.
- C. Create a Winpeshl.ini file in the \Windows\System32 folder of the image.
- D. Create a [LaunchApp] section in the INI file and add the command.
- E. Create a [LaunchApps] section in the INI file and add the command.

Correct Answer: CE

Section: (none)
