MB-700

Exam Name: Microsoft Dynamics 365: Finance and Operations Apps Solution Architect

Topic 1: Architect solutions Case Study

Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements.

If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Qbutton to return to the question.

Background City Power and Light is a publicly traded electric utility company. The company has a corporate office, four regional field offices, two subsidiary companies that produce solar energy, and one wind power subsidiary. City Power and Light has 50 percent ownership in the solar energy company. The company fully owns the wind power company but operates it separately from other businesses.

City Power and Light currently operates with varying integrated legacy systems and has difficulty assembling company financials. Migrating these systems and workloads to a common platform would improve visibility into the business and inform decision making. The company plans to implement Dynamics 365.

Legacy systems

- The legacy system does not have audit capability of configurable workflow based on business logic
- The legacy paper-based purchasing system does not allow parent-child relationships for vendors.

Two signatures are required for purchase requisitions.

- Purchase orders are entered into the system manually based on signed purchase requisitions printed to PDF and then emailed to the vendor.
- The legacy procurement system does not have a parent-child relationship for master data management.

Financials

- All financial consolidate up to City Power and Light Holding, LLC.
- The finance department employees are currently able to create as well as pay invoices.

Customers

Sales orders from the website are uploaded into the system manually once a day .

International and domestic customers currently post to the same receivable account. At the end of the month, these have to be separated into domestic and international receivable accounts.

Other information

- There are multiple active acquisitions expected during the implementation timeline.
- The item master data for solar panel configurations has multiple variables and variants. As a complex.

General

- Flexible implementation approach to support frequently changing business needs and requirements.
- A phased roll-out is needed due to the complexity of the business.
- Any offsite Travel meals submitted on an expense report without corresponding flight and hotel expenses need to be reviewed.
- Ten percent of vendor invoices should be reviewed to ensure they meet company policy.
- Testing of business processes needs to be automated.
- Customer surveys must be sent out after email customer service interactions. Surveys must contain a rating system and a way for customers to add comments.
- Employees require one central tool for internal communication, phone calls, and file sharing.
- Sales representatives need an enterprise quoting tool for solar panel customers.

Technical

- A cloud-based financial and operational system, accessible on mobile devices.
- The ability to keep a legacy meter reading application with the ability to use the data in aggregated operating reports.
- Business processes should be tested with different variables for the same process as part of the testing plan.

Functional

- Establish and document business processes to assist with on-boarding new employees more efficiently.
- Parent-child relationships need to be established for vendors with regional offices. Purchasing locations vary from invoicing locations.
- The ability to create automated wire payments.

Requisitions

- All purchase requisitions over \$50 need to be approved by a manager.
- All purchase requisitions over \$1,000 require senior manager approval.
- Multiple purchase requisitions to the same vendor should be combined.

Sales

The item master data for solar panel configurations have multiple variables and variants. This leads to complex quoting and sales orders.

Sales representatives must be able to create automated wire payments.

Issues

- A limited number of users are available for testing.
- User1 reports that the date fields are not saving during formula entry with saved variables functionality in the RSAT tool.
- The purchasing department is seeing duplicate vendor records during data conversion.
- Audit notes from the prior year indicate improvement is needed in roles and responsibilities related to financial management and security roles.
- User2 reports that parts ordered on P0123 were never received and the vendor has said they never received the PO.
- User3 provides feedback that important steps during journal entry are being forgotten and new users need hands-on guidance.
- Service technicians report that they do not always have the appropriate tools or parts with them requiring multiple service calls.

QUESTION 1

You need to recommend a solution to resolve the issues reported with the company's legacy systems.

Which functionality should you recommend?

- A. Vendor groups
- B. Financial dimensions
- C. Vendor posting profile
- D. Invoice-to account

Correct Answer: B

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/fin-ops/organizationadministration/plan-organizational-hierarchy>

QUESTION 2

DRAG DROP

You need to recommend Microsoft solutions for City Power and Light's business requirements.

What should you recommend? To answer, drag the appropriate solutions to the correct requirements. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

www.VCEplus.io

Answer Area

Solutions	Requirement	Solution
Microsoft Forms Pro		
Microsoft Power Automate	Customer surveys	
Microsoft Teams	Centralized tool for all employee communication and file sharing	
Dynamics 365 Field Service		
Microsoft SharePoint	Manage part inventory and tools on trucks for customer support appointments	
PowerApps		
Dynamics 365 Customer Service		

Correct Answer:

Answer Area

Solutions	Requirement	Solution
Microsoft Power Automate	Customer surveys	Microsoft Forms Pro
	Centralized tool for all employee communication and file sharing	Microsoft Teams
Microsoft SharePoint	Manage part inventory and tools on trucks for customer support appointments	Dynamics 365 Field Service
PowerApps		
Dynamics 365 Customer Service

QUESTION 3

DRAG DROP

You need to recommend solutions for City Power and Light's new system.

What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Answer Area

Tools	Requirement	Tool
ISV	Solar panel quoting	
Custom	Wire payments	
Standard	Audit requirements	

Correct Answer:

Answer Area

Tools	Requirement	Tool
	Solar panel quoting	Custom
	Wire payments	ISV
	Audit requirements	Standard

Section:

Explanation:

QUESTION 4

You need to recommend an appropriate implementation methodology.
Which methodology should you recommend?

- A. Spiral
- B. Lean
- C. Waterfall
- D. Agile

Correct Answer: D

Section:

QUESTION 5

HOTSPOT

You need to recommend solutions to streamline the business processes.
Which tool should you recommend for each requirement? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

QUESTION 6

You need to recommend a solution for the business process testing plan. What should you recommend?

- A. LCS Business process library
- B. SysTest framework
- C. Chain test cases

D. Derived test cases

Correct Answer: D

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/perf-test/rsat/rsat-derivedtest-cases>

QUESTION 7

You need to recommend a purchasing process based on the requirements.

Which three system capabilities should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. procurement categories
- B. signing limits
- C. workflow
- D. purchasing policies
- E. security roles

Correct Answer: C, D, E

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/procurement/purchase-policies>

QUESTION 8

You need to manage the roles and responsibilities for security and financial management to address concerns found in the prior year's audit. What should you do?

- A. Use security roles with segregation of duties.
- B. Implement a security group for all users in finance department.
- C. Use security roles with audit workbench.
- D. Grant multiple security roles per user.

Correct Answer: A

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/sysadmin/tasks/set-upsegregation-duties>

QUESTION 9

You need to recommend a toolset to assist with User3's feedback about the issues with journal entry and new user training. What should you recommend?

- A. RSAT tool with LCS
- B. Task Recorder with RSAT
- C. Task Recorder with BPM library
- D. RSAT tool with Asset library

Correct Answer: C

Section:
Explanation:
Reference:
<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/lifecycle-services/bpmoverview>

QUESTION 10
DRAG DROP
You need to determine which system functionality meets the business requirement.
What should you recommend? To answer, drag the appropriate functionalities to the correct requirements. Each functionality may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content
NOTE: Each correct selection is worth one point.

Select and Place:

Functionalities	Requirement	Functionality
Workflow	Approve purchase requisitions over \$50.	Functionality
Purchasing policy	Review offsite travel expenses.	Functionality
Audit policy	Enforce vendor invoice compliance.	Functionality

Correct Answer:

Functionalities	Requirement	Functionality
	Approve purchase requisitions over \$50.	Workflow
	Review offsite travel expenses.	Purchasing policy
	Enforce vendor invoice compliance.	Audit policy

Section:
Explanation:

QUESTION 11
HOTSPOT
You need to correctly structure the master data.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area	
Issue	Option
Vendors with multiple ship to addresses.	<div><div></div><div>Business address</div><div>Invoice-to account</div><div>Vendor group</div><div>Vendor posting profile</div></div>
International and domestic customer receivables.	<div><div></div><div>Customer group</div><div>Customer segment</div><div>Default dimensions</div><div>Financial dimensions</div></div>

Answer Area:

Topic 2: Define solution strategies Case Study

Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements.

If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Qbutton to return to the question.

Overview CoHo Vineyard and Winery is based in the United States. The company has a single vineyard. The company distributes full pallets of wine worldwide and sometimes sells wine by using a private label.

Grape growing and wine production operations are owned and operated by a third-party company.

The company uses bottles, accessories, and other disposables from a company in China.

CoHo Vineyard and Winery opens a second location. This location manages inventory for Wine Club members and includes a wine tasting room. The location also includes a warehouse and distribution center.

The wine club currently has 200 members. The company hopes to increase this number.

The company holds events for club members in the tasting room and ships both full cases and individual bottles to members. The tasting room is not treated as a retail store. All sales to club members only and purchases must

be made on-account.

Company structure

The following graphic shows the company structure:

Organization

The current organizational chart and roles as follows:

Current environment Coho Vineyard and Winery currently uses manual processes for most of its operations. The company stores names and phone numbers for club members and prospective club members in a Microsoft Excel workbook. The sales team currently tracks club membership in a separate system. Sales team stock awards are granted on a three-year basis. The solution for the sales Team cannot be replaced for three years.

- The types of wine, such as cabernet sauvignon and red blends are tracked as separate items. Each item will have a year associated with it such as Red Blend 2017, 2018, 2019, etc. The items are updated for the year association annually.
- Peak times for order entry could be in the hundreds. This typically happens when first and second shift workers overlap and all users are on the system, as well as orders imported in.
- Packaging materials, bottles, and accessories are received in the warehouse FOB Destination from the manufacturer in China.
- Each retailer has individual item numbers, barcode placement descriptions and other additions such as pictures and details of the wine year and flavor notes.

CoHo Vineyard and Winery has outgrown their legacy ERP system and plans to implement Dynamics 365 Finance. CoHo wants to use out-of-the-box tools which are linked to the system where possible and not create new tools.

Licensing and organization

- Only the President/CEO, CFO, COO, Controller and VP Operations users must be able to access finance and warehouse features.

- Warehouse users must only have access to warehouse function. All other users must have access to finance functions.
- The distribution center must have mobile scanners for the warehouse. The tasting room will not have mobile scanners.
- The inventory cost must be tracked separately by distribution center or tasting room.

Club membership events

- You must ensure the members created in their existing system are also customers in Dynamics 365 Finance and that the customers do not exist in both systems under multiple record numbers.
- When tasting events are planned, text notifications must be sent out to the club members.
- text notifications must sent out to non-club members to encourage the non-members to join the club.
- During tasting events. CoHo will need access to place orders during the event but will not have the need for cash registers.

Warehouse and shipping

- The system must be able to track inventory throughout the whole warehouse process.
- A Certificate of Origin must accompany each shipment.
- Private label items that are shipped to retailers must be stored and costed as a single item number at CoHo.
- The system must be able to compare year-to-year performance of a single wine type.

Implementation

- Business processes must be documented as step-by-step processes and must align with the process flows in a visual format
- Data will be migrated and is a requirement for order entry.
- Data migration must be completed prior to testing.
- You must track each step of process validation so that the users have ownership for their individual functional areas. The tracking system used should be integrated with the system where possible.

Issues

- Users are struggling to understand the new system's processes.
- CoHo is concerned that the go-live will may not go smoothly.

QUESTION 2

You need to recommend a solution tor tracking business process test steps. What should you recommend?

- A. Microsoft Azure DevOps
- B. Data Migration Framework
- C. Selenium Automation Framework
- D. Microsoft SharePoint

Correct Answer: A
Section:

QUESTION 3

You need to ensure that the customer records remain synchronized in both systems.
What should you recommend?

- A. Write a Power BI report.

- B. Integrate the third-party application into Dynamics 365 Finance
- C. Replace the sales system with Dynamics 365 Sales.
- D. Use Microsoft Power Automate

Correct Answer: B

Section:

Explanation:

Reference:

<https://www.pragmatiqsolutions.co.uk/blog/frequently-asked-questions/can-dynamics-365-integrate-with-our-existing-business-systems/>

QUESTION 4

You need to recommend a solution to send notifications to club members and non-members.

What should you recommend?

- A. Use Dynamics 365 Commerce.
- B. Use Microsoft Outlook to send emails.
- C. Implement alerts.
- D. Use Power BI to generate reports.
- E. Implement Dynamics 365 Customer Service SMS integration.

Correct Answer: E

Section:

QUESTION 5

HOTSPOT

You need to recommend a site and warehouse configuration.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

www.VCEplus.io

Answer Area	Solution
Configuration	
Warehouse type	<div>▼</div> <div>One advanced site, configure items for scanning</div> <div>One basic warehouse, one advanced warehouse</div> <div>Two basic warehouses, configure items for scanning</div> <div>Two basic warehouses, no item configuration for scanning</div>
Financial tracking	<div>▼</div> <div>Item</div> <div>License plate</div> <div>Location</div> <div>Warehouse</div>

Answer Area:

QUESTION 9

You need to create a plan that meets the following requirements:

- Migrate the data to the new system.
- Implement a standardized method for creating items.
- Prevent items from being created in different ways going forward.

Which two actions should you recommend? Each correct answer presents a complete answer. NOTE:

Each correct selection is worth one point.

- A. Migrate item data in the cutover plan after the annual updates of items,
- B. Suggest creating a Power BI report to identify like-items after migration.
- C. Migrate items in the cutover plan before the annual update of items.

- D. Suggest a Master Data Management team who standardizes the item master.
- E. Migrate existing items as-is.

Correct Answer: B, D

Section:

QUESTION 10

You need to recommend a solution to manage the wine bottle label requirements for the private brand. What should you recommend?

- A. Use an add-on solution for barcode and label report printing.
- B. Create notes on the item and print for the customers.
- C. Implement Advanced Warehouse label printing.
- D. Recommend Dynamics 365 Retail.

Correct Answer: A

Section:

QUESTION 11

You need to recommend the appropriate number of production instances and the hosting location. What should you recommend?

- A. One production instance in China.
- B. Two on-premises production instances hosted in both China and the United States.
- C. One on-premises production instance hosted in United States and one cloud production instance hosted in China.
- D. Two production instances hosted in China and the United States.
- E. One production instance hosted in the United States.

Correct Answer: D

QUESTION 1

A customer is preparing to upgrade to a new version of Dynamics 365 Finance.

Unit testing is required prior to the upgrade.

You need to recommend a testing tool for unit testing.

Which tool should you recommend?

- A. Regression suite automation tool
- B. Business process modeler
- C. SysTest
- D. Data task automation

Correct Answer: C

Section:

Explanation:

Use SysTest Framework to author unit/component test code.

SysTest framework is Unit Test framework in Dynamics 365 for Finance and Operations, Enterprise edition. SysTest framework was available in the earlier version as well, and it provides developers the ability to write unit test code for the business logic.

QUESTION 2

A company uses Dynamics 365 Finance. The company experiences performance issues with several forms in production.

You need to use Live View SQL performance metrics to identity potential issues that occur in real time.

You need to recommend a solution to troubleshoot performance issues.

Which two performance metrics should the company use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Blocking statements
- B. Batch requests
- C. Database File I/O
- D. Executing statements
- E. Executing indexes

Correct Answer: A, D

Section:

Explanation:

AD: Live View – Shows executing statements and blocking statements.

A: Sample flow Scenario: Users report slow performance when using the system. One issue could be a blocking statement. Blocking by itself is typical in a healthy system and is only a problem when it becomes excessive or starts degrading business activities.

Go to the Live View tab and check if there are any blocking statements. If there is a blocking statement, copy the blocking query ID.

Open the Queries tab and select the Current Blocking Tree query. This will return the root blocker that is blocking the SQL operation.

Etc.

QUESTION 3

DRAG DROP

A client wants to create a custom view-only security role that allows users to view the customer list in the accounts receivable module. It must be accurately reported during a security audit.

You need to recommend how to implement the privileges.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer area
Add the CustCustomerMasterInquire duty to the ReadOnlyUserAR role.	
Create a new security role named ReadOnlyUserAR .	
Add the Customers privilege to the CustCustomerMasterInquire duty.	
Add the custom role ReadOnlyUserAR to users.	
Create a custom duty named CustomerViewList .	
Add the Customers privilege to the CustomerViewList duty.	
Add the CustomerViewList duty to the ReadOnlyUserAR role.	

Correct Answer:

Actions	Answer area
Add the CustCustomerMasterInquire duty to the ReadOnlyUserAR role.	Create a new security role named ReadOnlyUserAR .
	Create a custom duty named CustomerViewList .
Add the Customers privilege to the CustCustomerMasterInquire duty.	Add the Customers privilege to the CustomerViewList duty.
	Add the CustomerViewList duty to the ReadOnlyUserAR role.
	Add the custom role ReadOnlyUserAR to users.

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each Question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate business units. Does the solution meet the goal?

A. Yes

B. No

Correct Answer: A

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/generating-consolidatedfinancial-statements>**QUESTION 5**

Note: This question is part of a series of questions that present the same scenario. Each Question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate cost centers to manage operations. Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B**Section:****QUESTION 6**

Note: This question is part of a series of questions that present the same scenario. Each Question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate departments to manage functional areas. Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B**Section:****QUESTION 7**

A company is headquartered in Canada and has four regional offices in Japan, Great Britain, Germany, and Mexico.

An architect is documenting the following business requirements:

Accounts payable parameters must be unique within an organization.

Monthly financial results must be consolidated.

You need to design the organization to map to the requirements. Which functionality should you use?

A. Legal entities

B. Line of business

C. Business units

D. Operating units

Correct Answer: C**Section:****Explanation:**

<https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/generating-consolidatedfinancial-statements>

QUESTION 8

A local community college uses Microsoft SharePoint Online to track and manage laptop computers that are issued to faculty and other employees.

Information about all laptops must be visible in Asset Management for Dynamics 365 Supply Chain Management. Users must be able to issue new laptop computers to faculty and other employees directly from the system.

You need to recommend a solution for the college.

Which two actions should you recommend? Each correct answer provides a complete solution.

NOTE: Each correct selection is worth one point.

- A. Implement data management.
- B. Implement human resources.
- C. Embed PowerApps into the Employees form.
- D. Implement fixed assets.

Correct Answer: B, C

Section:

Explanation:

QUESTION 11

An organization is planning to migrate to Dynamics 365 Finance.

The organization reports that the legacy system has failed during peak sessions. You need to recommend an approach that will handle peak session volume.

Which two approaches should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Use performance and load testing.

- B. Configure a single box development environment.
- C. Perform user integration testing.
- D. Optimize server configuration.

Correct Answer: A, D

Section:

QUESTION 12

You are an architect implementing a Dynamics 365 Finance environment.

You need to analyze test results generated by the development team. Which tool should you use?

- A. Trace parser
- B. Task Recorder
- C. Regression suite automation tool
- D. SysTest

Correct Answer: A

Section:

QUESTION 13

A company is using Dynamics 365 Finance.

You need to ensure that the production environment always uses the latest service updates from Microsoft. What should you recommend?

- A. Deploy a production environment.
- B. Set update settings for continuous updates.
- C. Request the update through a service request.
- D. Run the code upgrade service to analyze the code.

Correct Answer: B

Section:

QUESTION 14

HOTSPOT

A company is determining which reporting tools to use as part of a Dynamics 365 Finance implementation.

Scenario A: Power users must use a free form tool to allow other power users to leverage transactional data to be consumed externally.

Scenario B: Developers must use a modeling tool to allow all users to leverage aggregated data to be consumed internally.

Scenario C: Developers must use a free form tool to allow all users to leverage transactional and aggregated data to be consumed internally and externally.

Scenario D: Power users must use a free form tool to allow all users to leverage aggregated data to be consumed internally and externally.

Scenario E: Power users must use a modeling tool to allow other power users to leverage transactional data to be consumed externally.

You need to recommend which tool should be used for each scenario.

Which tool should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 16

A holding company with three independently managed and operated subsidiaries is implementing Dynamics 365 Finance. The company needs to ensure the restriction of data for each company from subsidiary counterparts. You need to determine an organization structure. Which structure should you recommend?

- A. single legal entity with security policies
- B. separate legal entities
- C. single legal entity with custom business unit financial dimension
- D. single entity that consolidates legal entities
- E. single legal entity with default business unit financial dimension

Correct Answer: B

Section:

QUESTION 17

A company plans to implement Dynamics 365 Finance + Operations (on-premises). The company has system compliance requirements that must be addressed. You need to design the solution for the company. What should you address in the design?

- A. employee retirement

- B. data privacy
- C. fair labor standards
- D. equal employment opportunity

Correct Answer: B

Section:

QUESTION 18

An organization is implementing Dynamics 365 Finance.

The organization uses financial reports including detailed balance information in local currencies for all accounts. Reports must include general ledger account number and journal entry line description.

You need to recommend a report that meets the requirements. Which report should you recommend?

- A. Audit Details
- B. Summary Trial Balance
- C. Balance Sheet
- D. Cash Flow

Correct Answer: A

Section:

QUESTION 19

A trading company is concerned about the impact of General Data Protection Regulation (GDPR) on their business.

The company needs to define personal data for their business purposes. You need to define personal data as defined by GDPR.

Which three types of data are considered personal data? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. password
- B. Social Security number
- C. a portion of the address (region, street, postcode etc.)
- D. International article (EAN) number
- E. MAC address

Correct Answer: A, B, C

Section:

QUESTION 20

A company needs to create customer-facing documents in Dynamics 365 Finance.

The company does not have an in-house developer.

You need to determine a solution for creating the documents.

Which three tools should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. SSRS reports
- B. Microsoft Excel
- C. Electronic reporting
- D. Microsoft Word
- E. Financial reports

Correct Answer: B, C, D

Section:

QUESTION 21

A company is upgrading their AX 2012 R3 environment to Dynamics 365 Finance. The company plans to upgrade the data store by using a phased approach. You need to define the strategy to migrate master data and opening balances. Which tool should you recommend?

- A. Data Import/Export Framework
- B. Data migration tool
- C. Combine XPO tool
- D. Usage profiler

Correct Answer: A

Section:

Explanation:

QUESTION 22

A company plans to implement Dynamics 365 Finance.

The company's current system contains sales tax-related data.

You need to design a solution that sequences the transfer of sales tax codes and sales tax groups.

What should you do?

- A. Design a data migration scenario.
- B. Write customization requirements.
- C. Analyze data integration points.
- D. Design user acceptance testing processes.

Correct Answer: A

Section:

QUESTION 23

A data architect creates a document that specifies the data format to transfer data from an existing environment to a new environment.

You need to create a requirement for the general ledger data. Which sequence number format is correct?

- A. [Data Type Reference].[Module #].[Sequence Number]
- B. [Sequence Number].[Data Type Reference].[Module #]
- C. [Data Type Reference].[Sequence Number].[Module #]
- D. [Module #].[Data Type Reference].[Sequence Number]

Correct Answer: D

QUESTION 24

www.VCEplus.io

A toy manufacturer keeps finished products in a physical warehouse.
The manufacturer and distributor use different inventory control software.
Sales orders are used to move inventory to the distributor.
The distributor must be notified immediately when the toy manufacturer ships an order.
You need to determine a solution for providing notifications to the distributor's inventory system.
What are three possible ways to achieve this goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

- A. OData
- B. Custom web service
- C. Lifecycle Services
- D. Business events
- E. Recurring integrations

Correct Answer: A, D, E

Section:

QUESTION 25

A company wants to upgrade their current AX 2009 system to Dynamics 365.
You need to recommend a supported upgrade strategy for code and transactional data for the previous five years.
Which two options should you recommend? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

- A. Use the Data migration tool (DMT) to move the data from AX 2009 to Dynamics 365.
- B. Use Lifecycle Services Code upgrade tool to directory upgrade the code base from AX 2009 to Dynamics 365.
- C. Upgrade code from AX 2009 to AX 2012, and then AX 2012 to Dynamics 365.
- D. Use the Data Import/Export Framework to migrate the data from AX 2009 to Dynamics 365.

Correct Answer: A, C

QUESTION 26

A client has a third-party warehouse management system.
Data from the system must be integrated with Dynamics 365 Finance in near real-time. You need to determine an integration solution.
Which two solutions should you recommend? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

- A. OData
- B. Batch data API processed daily
- C. Data management
- D. Business events

Correct Answer: A, D

Section:

QUESTION 27

An organization is planning a new Dynamics 365 Finance + Operations (on-premises) implementation. The business process demands a huge volume of transactions to be imported during peak hours. Users can always access the system. You need to do proper hardware sizing to ensure expected performance. Which two factors should be considered for sizing? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. user profile management
- B. business process optimization
- C. deadlock log evaluation
- D. crash dump analysis
- E. transaction characterization

Correct Answer: B, E

Section:

QUESTION 28

An organization has implemented the accounts payable module in Dynamics 365 Finance. Corporate policy specifies the following: Managers and directors are allowed to approve invoices for payment. Users are allowed to delegate their signing authority to other users when they are out of the office. Accounts payable workflow will be used to assist in automating the signing process. Users whose job has signing authority can approve invoices for payment. You need to meet the organization's corporate policy. What should you recommend?

- A. Create workflow rules.
- B. Assign all jobs signing authority.
- C. Create business event rules.
- D. Email the delegation policy to all managers.

Correct Answer: A

Section:

QUESTION 29

You are preparing a proof of concept environment using Dynamics 365 Finance. You need to analyze the results generated from the Regression suite automation tool (RSAT). Which Lifecycle Services tool should you use to store the RSAT testing files?

- A. Asset library
- B. Business process modeler
- C. Usage profiler
- D. Methodologies

Correct Answer: B

Section:

QUESTION 30

A client is implementing Dynamics 365 Finance.

You need to determine a testing solution to validate performance of critical business processes in the organization.
Which two tools should you use? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

- A. Task Recorder
- B. SysTest
- C. PerfSDK
- D. Regression suite automation tool

Correct Answer: A, C

Section:

QUESTION 31

A company is implementing Dynamics 365 Finance.

A series of related data packages must be migrated.

You need to define the sequence of the data packages migration. Which Lifecycle Services tool should you use?

- A. Solution management
- B. Business process modeler
- C. Process data package in the Asset library
- D. Software deployable package in the Asset library.

Correct Answer: D

QUESTION 37

A company uses Dynamics 365 Supply Chain Management and has two legal entities that distribute the same items. One of the legal entities uses advanced warehouse management.

New items that are created must meet the business needs of both companies and allow for consolidated analytics.

You need to recommend a master data management strategy to standardize the item master and meet the business requirements.

What should you recommend?

- A. Create the product record and release to each company where setup variations are completed.
- B. Use Common Data Management to create the item templates for both legal entities.
- C. Create an item in each company with different item numbers.
- D. Use an advanced warehouse setup for the product and release to both companies.
- E. Create an item in each company with the same item number.

Correct Answer: B

Section:**QUESTION 38**

You are planning to implement Dynamics 365 Finance.

Accountants in your organization need to be able to enter multiple lines into payment journals.

You need to recommend a tool for expediting data entry.

What should you recommend?

- A. Use the desktop version of Microsoft Excel to use the Excel Data Connector app.
- B. Use the Data migration tool.
- C. Use an aggregate data entity to expose data to the Microsoft Excel Data Connector app.
- D. Use Microsoft Excel online to use The Excel Data Connector app.

Correct Answer: A

QUESTION 43

A German company is implementing a cloud-based Dynamics 365 system.

The company needs to determine the best data storage solution for the following requirements:

Data must be stored in the European Union.

Data cannot be viewed by the United States government under the Patriot Act.

Data transfer exceptions can be made but must be authorized by the corporate legal team.

You need to determine which cloud services may have to transfer data to the United States.

Which three services should you review? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Lifecycle Services
- B. Technical support
- C. Usage data
- D. Power BI dashboard
- E. Data center failover

www.VCEplus.io

Correct Answer: A, B, C

Section:

QUESTION 44

A company that rents photocopiers is implementing Dynamics 365 Supply Chain Management.

Technicians carry spare parts in their trucks to use during maintenance visits.

You need to determine how to capture the parts consumed.

Where should you capture this information?

- A. Fixed Assets module
- B. Service module
- C. Service agreement
- D. Sales order

Correct Answer: A

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/asset-management/setup-forobjects/object-types>

QUESTION 45

A local bookstore plans to offer online ordering with in-store pickup by using a third-party ecommerce site. Credit card authorizations are required for online sales. You need to recommend options to ensure that customers who place online orders are not charged until the merchandise is picked up in the store. What are three possible ways to achieve this goal? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Pass a credit card token from Dynamics 365 Retail POS to e-commerce.
- B. Pass sales data from e-commerce to Dynamics 365 Finance.
- C. Configure Dynamics 365 Finance and Dynamics 365 Retail.
- D. Replace e-commerce with a link to Dynamics 365 Retail POS so users can enter their own credit card data.
- E. Pass a credit card token from e-commerce to Dynamics 365 Retail POS.

Correct Answer: B, C, E
Section:

QUESTION 46

HOTSPOT
A company is evaluating licensing for Dynamics 365 Finance. The company requires expense management functionality that enables expense reports to be submitted by various users. Expense approvals will be a back-office function. You need to determine the license type for each role. Which license types are required? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Hot Area:

Role	License type
Expense creator	<div><div></div><div>Device</div><div>Dynamics 365 Finance</div><div>Team Member</div></div>
Expense approver	<div><div></div><div>Dynamics 365 Finance</div><div>Dynamics 365 Project Operations</div><div>Dynamics 365 Supply Chain Management</div></div>

Answer Area:

Role	License type
Expense creator	<div>▼</div> <div>Device</div> <div>Dynamics 365 Finance</div> <div>Team Member</div>
Expense approver	<div>▼</div> <div>Dynamics 365 Finance</div> <div>Dynamics 365 Project Operations</div> <div>Dynamics 365 Supply Chain Management</div>

Explanation:

QUESTION 47

HOTSPOT

You are a solution architect that implements Dynamics 365 finance and operations apps.

An advanced scenario in master planning includes a product bug.

You need to create a modification to avoid the scenario with the product bug, but Microsoft has not created the required extension capabilities.

You need to recommend a solution to log the product bug and request the extension capabilities.

Which tools should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Action	Tool
Open support ticket.	<div>▼</div> <div>Lifecycle Services (LCS)</div> <div>FastTrack</div> <div>Azure DevOps</div> <div>Dynamics 365 Application Ideas</div>
Request extension capabilities.	<div>▼</div> <div>Lifecycle Services (LCS)</div> <div>FastTrack</div> <div>Azure DevOps</div> <div>Dynamics 365 Application Ideas</div>

Answer Area:

Action	Tool
Open support ticket.	<div>▼</div> <div>Lifecycle Services (LCS)</div> <div>FastTrack</div> <div>Azure DevOps</div> <div>Dynamics 365 Application Ideas</div>
Request extension capabilities.	<div>▼</div> <div>Lifecycle Services (LCS)</div> <div>FastTrack</div> <div>Azure DevOps</div> <div>Dynamics 365 Application Ideas</div>

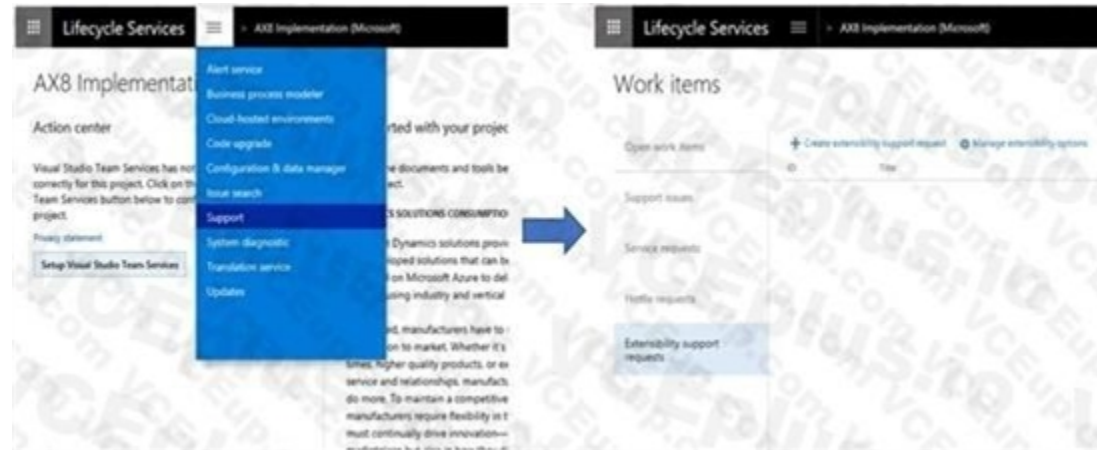

Section:

Explanation:

Box 1: Lifecycle Services (LCS) To open a support ticket with the Microsoft Support team, in LCS, the Support tile opens a tool that helps you manage support incidents. To submit issues directly to Microsoft, select the Support tile in your LCS project.

Box 2: Lifecycle Services (LCS) Extensibility requests are logged using a specific project in LCS. Logged requests are collected under that same project. We recommend that you log related requests under the same LCS project as this helps maintain a holistic view on all requests for a specific solution or an implementation. Microsoft then further identifies logged requests by the organization name that is associated with the LCS account.

In your LCS project, at the top of the page, select the hamburger icon and then click Support menu item.

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/extensibility/extensibilityrequests>

QUESTION 48

A company implements Dynamics 365 Finance to replace a legacy enterprise resource planning (ERP) system. A proprietary customer relationship management (CRM) system must be integrated with Dynamics 365 Commerce. The integration must be asynchronous. You need to use a tool to integrate the CRM system. Which tool should you recommend?

- A. Data Integrator
- B. Batch data API
- C. Data
- D. Dual-write

Correct Answer: A

Section:

QUESTION 49

DRAG DROP

A company uses Dynamics 365 finance and operations apps. The company creates its performance monitoring strategy. The implementation has complex modifications and data intensive processes that create deadlocks. You need to recommend tools for the company to use to monitor performance. Which tools should you recommend? To answer, drag the appropriate tools to the correct performance questions. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Select and Place:

QUESTION 50
You are configuring automated business processes for an organization. The business analyst has identified the following requirements:
Invoices need to be approved before payment.
A person who submits an item to workflow cannot approve that item.
You need to recommend a configuration workflow.
What should you recommend?

A. Create an advanced rule to validate signing limit in the workflow.
B. Leave workflow settings at default to prevent approvals.
C. Create a special rule in the workflow to prevent approval.
D. Enable Disallow approval by submitter in the workflow configuration.

Correct Answer: D

Section:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/fin-ops/organizationQuestions&AnswersPDFP-114administration/workflow-faq?toc=/dynamics365/commerce/toc.json>

QUESTION 51

A client plans to implement Dynamics 365 Finance.

The client is unsure whether to use a cloud-based or on-premises implementation.

For which scenario should the client install the on-premises version of the app?

- A. The client is concerned about disaster recovery and high availability.
- B. The client needs to comply with federal regulations and keep their financial data at their headquarters location.
- C. The client is concerned about their retail stores losing internet connection and not being able to process offline store transactions.
- D. The client needs to be SOC 1 compliant

Correct Answer: B

Section:

Explanation:

QUESTION 52

A company is implementing Dynamics 365 Finance.

The company wants to automate expense reports processing. The new process must provide visibility into all steps of the approval process.

You need to recommend a solution.

Which two solutions should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use Microsoft Power Automate to create a workflow.
- B. Use the Business process modeler (BPM) to create a business process flow.
- C. Use the PowerApps platform to create a business process flow.
- D. Create a workflow that runs on Application Object Server (AOS).

Correct Answer: A, D

Section:

QUESTION 53

A company manufactures and distributes sporting goods. The company uses Dynamics 365 Finance and Project Operations.

A user's primary role is managing projects. The user must also have access to trial balances and journal entries.

You need to determine the correct license assignment for this user.

Which two licenses should you assign to the user? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Finance attach
- B. Finance base
- C. Project Operations base
- D. Project Operations attach

Correct Answer: B, D

Section:

Explanation:

Base licenses and cost savings opportunities for "attach" licenses Microsoft provides a cost-effective way for a single Dynamics 365 user to obtain full user licensing for multiple products. Licenses for products that provide core business functionality qualify as base licenses. (See the table below.) Each has one or more additional applications that are frequently used by people in the same roles and that qualify as attach licenses for that user. (These are sometimes referred to as subsequent qualifying applications.) To take advantage of the special attach license pricing:

1. Buy the first base user license at standard pricing.
2. Review which attach licenses are available for that base. (See the qualifying products for each base license below.)
3. Buy attach licenses for the same user at an attach license price. You may buy as many attach licenses as are available for that base license.

Reference: <https://go.microsoft.com/fwlink/p/?LinkId=866544> (Dynamics 365 Licensing Guide)

QUESTION 54

A company is implementing Dynamics 365 Finance. The company plans to use Business process modeler (BPM) tool to align their business processes with industry-standard processes.

You need to help the company get started using BPM.

Which prerequisite should the company install?

- A. A. Business events catalog
- B. Asset library
- C. American Productivity and Quality Center (APQC) membership
- D. Azure DevOps project

Correct Answer: D

Section:

Explanation:

Business process modeler (BPM) in Lifecycle Services (LCS), prerequisites To effectively use BPM, you must have Microsoft Office 2010 and a Microsoft Azure DevOps project.

Reference: <https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/lifecycle-services/bpm-overview>

QUESTION 55

A company is implementing Dynamics 365 Finance. The company plans to implement a self-service environment.

The golden configuration and master data have been copied to the user acceptance testing (UAT) environment. The company is ready for a cutover.

You need to move the UAT configuration and master data to the production environment.

What should you do?

- A. Import the database from Lifecycle Services (LCS).
- B. Create a service request to move the sandbox environment to the production environment.
- C. Refresh the database from Lifecycle Services (LCS).
- D. Create a service request for the environment deployment.

Correct Answer: C

Section:

Explanation:

Perform master data migration

Now that the UAT environment is hydrated with the golden configuration, you can begin to migrate master data.

Self-service

In LCS, open the Full details for the production environment to load the Environment page.

In the Maintain menu, select Move database.

For the operations options, select Refresh database.

In the Source environment, select the sandbox where your golden configuration is. Note the important instructions found on the Refresh database page for this operation.

Select the check box to confirm that you understand this operation will overwrite the production database. The operation starts immediately after submitting the request.

Reference: <https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/devitpro/database/dbmovement-scenario-goldenconfig#perform-master-data-migration>

QUESTION 56

A company uses a third-party enterprise resource management tool. The company plans to implement Dynamics 365 Finance. You need to recommend a tool that reduces the learning curve for employees. Which tool should you recommend?

- A. Microsoft Azure DevOps
- B. Task Recorder
- C. Regression suite automation tool
- D. Lifecycle Services

Correct Answer: D

Section:

Explanation:

Lifecycle Services (LCS) for Microsoft Dynamics is a collaboration portal that provides an environment and a set of regularly updated services that can help you manage the application lifecycle of your implementations of Finance and Operations apps.

Reference: <https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/lifecycle services/lcs>

QUESTION 57

A company is implementing Dynamics 365 Finance. The company is in the FastTrack program. User experience is a high priority for this implementation. The company wants to design the solution for ease of use, aesthetics, and consistency of experience. You need to determine in which session user experiences are designed. What is the appropriate session?

- A. Project kickoff meeting
- B. Implementation workshop
- C. Go-live Readiness workshop
- D. Solution Blueprint Review workshop

Correct Answer: B

Section:

Explanation:

The Implementation workshops includes User experience design:

Identify key goals and design elements the customer is leveraging to deliver an optimal user experience.

Agenda topics:

Ease of use – legacy system mapping

Ease of use – simplicity/efficiency

Aesthetics – ISV alignment

Aesthetics – corporate branding

Performance – speed

Consistency of experience Mandatory attendees are solution architects, functional leads, and technical leads. Recommended attendees include stakeholders from the customer and partner team

Reference: <https://docs.microsoft.com/en-us/dynamics365/fasttrack/success-by-design-overview>

QUESTION 58

HOTSPOT

A company is implementing Dynamics 365 Supply Chain Management. The company is enrolled in the FastTrack program. A project manager who is building a project plan needs to know which workshops discuss specific topics.

You need to identify the workshops in which each topic discussed. Which workshop is used for each topic? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Topic	Workshop
Business process	<div><div></div><div>Go-live Readiness</div><div>Implementation</div><div>Solution Blueprint Review</div></div>
Integration	<div><div></div><div>Go-live Readiness</div><div>Solution Blueprint Review</div></div>
Cutover	<div><div></div><div>Go-live Readiness</div><div>Implementation</div><div>Solution Blueprint Review</div></div>

Answer Area:

Topic	Workshop
Business process	Go-live Readiness
	Implementation
	Solution Blueprint Review
Integration	Go-live Readiness
	Solution Blueprint Review
Cutover	Go-live Readiness
	Implementation
	Solution Blueprint Review

Section:

Explanation:

Box 1: Solution Blueprint Review

A Solution Blueprint Review workshop serves as the starting point of Success by Design.

The Solution Blueprint Review workshop covers the following topics:

Program strategy

Application strategy

Data strategy

Integration strategy

Test strategy

*-> Business process strategy

Security strategy

Application lifecycle management strategy

Environment and capacity strategy

Intelligence strategy

Box 2: Go-live Readiness

The Go-live Readiness workshop is designed to help guarantee a successful go-live for Dynamics 365 projects.

Here are some of the topics the workshop is likely to cover:

Confirmation of the go-live date and scope

Solution acceptance and user training

Performance

*-> Integrations

Code management

Configuration management
 Review of blocking issues
 Cutover plan and final data migration
 Risk and mitigation review
 Customer go/no-go criteria
 Support process and hyper-care plan
 Box 3: Implementation

Cutover is part of Implementation.

Note: Cutover strategy Ensure that the cutover strategy provides a good approach and plan to deliver a well-defined, welltested, reliable, and safe transition from current systems to the new production systems.

Agenda topics:

Cutover vision and strategy

Cutover project plan

Go-live cutover plan

Post go-live plan Mandatory attendees are cutover lead, solution architect, data migration lead, and project manager roles. Recommended attendees include stakeholders from the customer and partner teams.

Reference: <https://docs.microsoft.com/en-us/dynamics365/fasttrack/solution-workshops>

<https://docs.microsoft.com/en-us/dynamics365/fasttrack/go-live-workshops>

<https://docs.microsoft.com/en-us/dynamics365/fasttrack/implementation-workshops#cutoverstrategy>

QUESTION 59

HOTSPOT

A company is implementing Dynamics 365 Finance. The company has an adjusted annual revenue to one million U.S. dollars. The company engages with the FastTrack program.

You need to advise on workshop content to aid their implementation.

Which workshop covers each implementation element? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Implementation element	Workshop
Security model design	<div>▼</div> <div>Go-live Readiness</div> <div>Implementation</div> <div>Project Kick-off</div>
Application lifestyle management strategy	<div>▼</div> <div>Go-live Readiness</div> <div>Project Kick-off</div> <div>Solution Blueprint Review</div>

Answer Area:

Implementation element	Workshop
Security model design	Go-live Readiness
	Implementation
	Project Kick-off
Application lifestyle management strategy	Go-live Readiness
	Project Kick-off
	Solution Blueprint Review

Section:

Explanation:

Box 1: Implementation

Implementation workshops provide timely guidance across the functional, technical, and implementation aspects of the solution. This includes:

Data migration strategy

Security model design

Etc.

Box 2: Solution Blueprint Review

The Solution Blueprint Review workshop covers the following topics:

Program strategy

Application strategy

Data strategy

Integration strategy

Test strategy

Business process strategy

Security strategy

* -> Application lifecycle management strategy

Environment and capacity strategy

Intelligence strategy Note: A Solution Blueprint Review workshop serves as the starting point of Success by Design. It is a mandatory workshop that sets the stage for the FastTrack engagement and provides a baseline to plan other Success by Design activities and workshops. The primary purpose of this workshop is to ensure that the fundamentals for project success are in place and the overall solution design approach is sound and aligned to the product best practices and direction.

Reference: <https://docs.microsoft.com/en-us/dynamics365/fasttrack/implementation-workshops>

<https://docs.microsoft.com/en-us/dynamics365/fasttrack/solution-workshops>

QUESTION 60

HOTSPOT

The company uses Lifecycle Services (LCS) environment monitoring tools to assess the health of their production environment.

The environment administrator must be able to do the following:

- View tasks performed during a browser session.
- Verify that interactive users are not connecting to servers allocated for batch jobs.

You need to determine which environment monitoring toots meet the requirements.
Which tool should you recommend for each requirement? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Requirement	Tool
View tasks performed during a browser session.	<div>Activity load</div> <div>User activity</div> <div>User load</div>
Verify that interactive users are not connecting to servers allocated for batch jobs.	<div>SQL insights</div> <div>User activity</div> <div>User load</div>

Answer Area:

Requirement	Tool
View tasks performed during a browser session.	<div>Activity load</div> <div>User activity</div> <div>User load</div>
Verify that interactive users are not connecting to servers allocated for batch jobs.	<div>SQL insights</div> <div>User activity</div> <div>User load</div>

Section:

Explanation:

Box 1: User activity

The User activity grid shows the various activities that users performed, based on their session timestamp.

Box 2: User Load

The User load section shows all the system users. Each chart shows the time that the user spent on a specific machine.

Reference: <https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/lifecycleservices/monitoring-diagnostics>

QUESTION 61

DRAG DROP

A company is implementing Dynamics 365 Supply Chain Management. The company is in the FastTrack program and has been assigned a FastTrack solution architect. The company has a partner who provides a solution architect to consult with the company throughout the implementation lifecycle. You need to determine which solution architect role is responsible for specific aspects of the implementation. Which role is responsible for each implementation task? To answer, drag the appropriate roles to the correct implementation tasks. Each role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Select and Place:

Roles	Answer Area	
	Implementation task	Role
FastTrack solution architect	Assess whether best practices are being followed.	
Partner solution architect	Design the solution.	
	Develop the solution.	

Correct Answer:

Roles	Answer Area	
	Implementation task	Role
FastTrack solution architect	Assess whether best practices are being followed.	FastTrack solution architect
Partner solution architect	Design the solution.	FastTrack solution architect
	Develop the solution.	Partner solution architect

QUESTION 64

A company uses the vendor collaboration functionality within Dynamics 365 Supply Chain Management.

You must grant an external vendor permission to collaborate with the company. The system must send the vendor an invitation email. Emails must be sent to work email addresses only.

You need to configure user access

Which two actions should you perform? Each correct answer presents part of the solution

NOTE Each correct selection is worth one point.

- A. Create a new Azure Active Directory tenant
- B. Set up separation of duties
- C. Provision a vendor user.
- D. Assign user roles.

Correct Answer: C, D

Section:

QUESTION 65

A company is implementing Dynamics 365 Finance. The company enrolled in the FastTrack program. You need to explain the benefits of FastTrack. What are three benefits? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. predictable success based on past experience
- B. solution design and development for the customer
- C. formalization of roles
- D. early discovery of risks and issues
- E. proactive guidance

Correct Answer: C, D, E

Section:

QUESTION 66

HOTSPOT
A company plans its Dynamics 365 finance and operations apps implementation. The implementation must do the following:
* Use an agile methodology.
* Follow Microsoft's recommendations for checks and balances.
* Align with FastTrack touchpoints.

FastTrack touchpoints must be identified and included in the implementation timeline. You need to integrate FastTrack checks and balances into the implementation methodology. What should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

QUESTION 67

A travel agency is implementing Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The agency must validate and perform these tasks during each regression cycle.

- Purchase and sales processes
- Payment gateway functionality to third-party integration
- Vendor payment
- Notifications
- Chart control

Page refresh data consistency You need to determine which tasks can be performed using the Regression suite automation tool (RSAT). Which three tasks can be performed? Each Correct answer presents a complete solution.

NOTE: Each correct selection is worth one point

- A. chart control
- B. notifications
- C. page refresh data consistency
- D. configure vendor payment settings
- E. purchase and sales processes

Correct Answer: B, C, E

Section:

QUESTION 68

Fourth Coffee plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company owns and operates the following divisions:

Division	Action
Production	Packages and roasts coffee beans
Distribution	Delivers products to market

You need to ensure that Fourth Coffee can report financial results by division. Which strategy should you recommend?

- A. Create two legal entities, create one warehouse and associate the financial dimension to the warehouse.
- B. Create one legal entity with one site that has two warehouses. Associate the financial dimensions to the warehouses.
- C. Create two legal entities, create one site and associate a financial dimension per company.
- D. Create one legal entity with two sites. Associate financial dimensions to sites.

Correct Answer: D

Section:

Explanation:

Reference:

QUESTION 69

A company plans to implement Dynamics 365 Finance ? Operations (on-premises).

The company has system compliance requirements that must be addressed. You need to design the solution for the company. What should you address in the design?

- A. job-protected family and medical leave
- B. workers' compensation
- C. employee retirement
- D. data privacy

Correct Answer: D

Section:

QUESTION 70

A client wants to create a custom view-only security role that allows users to view the customer list in the accounts receivable module. You create a security role named ReadOnlyUserAR and add the role to users. You create a custom duty named CustomerViewList.

You need to recommend how to implement the privileges.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Add the Customers privilege to the CustCustomer.
- B. Add the CustCustomerMasterInquire duty to ReadOnlyUserAR.
- C. Add the Customers privilege to CustCustomerMasterInquire.
- D. Add CustomerViewList to ReadOnlyUserAR.
- E. Add ReadOnlyUserAR to users.
- F. Add the Customers privilege to CustomerViewList.

Correct Answer: B, D, E

Section:

QUESTION 71

A company uses Dynamics 365 Finance and Supply Chain Management.

The company would like to add a third-party solution for scheduling appointments.

You need to recommend a solution to transfer critical schedule information.

Which two actions should you perform to make a recommendation? Each correct answer presents part of the solution NOTE: Each correct selection is worth one point.

- A. Analyze the impact of the new system in each business unit.
- B. Categorize business requirements for functional consultants to identify gaps in functionality.
- C. Describe the new functionality that is missing in the current system.
- D. Identify business processes that must be added, removed, or modified by functional consultants.

Correct Answer: B, D

Section:

QUESTION 72

A company is moving financial workloads to Dynamics 365 Finance.

Balance sheet accounts do not require department dimension postings while profit and loss accounts require department dimensions.

You need to determine which functionality achieves the goal.

What should you recommend?

- A. Legal entities
- B. Financial dimensions
- C. Account structures
- D. Financial dimension sets

<https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/configure-account-structures>

QUESTION 73

A company plans to upgrade from Microsoft Dynamics AX 2012 to Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company has a large call center that uses a third-party system to enter sales orders.

The company decides to keep the third-party system and integrate it with Dynamics 365 Finance and Dynamics 365 Supply Chain

The company also wants to reuse the Microsoft Dynamics AX 2012 integration and endpoints with Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

For performance reasons, non-real-time integrations must be avoided.

All solutions that are proposed should be supported by Microsoft in case there are performance issues.

You need to plan the integration strategy.

What should you do?

- A. Plan for testing in a production environment.
- B. Reuse the Application Integration Framework (AIF) and endpoint integration.
- C. Use only synchronous integrations.
- D. Use a standard Microsoft Data Management Framework (DMF) package REST API.

Correct Answer: B

QUESTION 75

DRAG DROP

A company is planning a Dynamics 365 finance and operations apps implementation. The implementation is complex and involves the FastTrack team in full capacity.

The company needs to know which workshop activities on the implementation timeline map to the FastTrack implementation phases in which the workshops will occur.

You need to map each workshop activity to the phase in which the workshop occurs.

Which phases will include the workshop activities? To answer, drag the appropriate phases to the correct workshop activities. Each phase may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content

NOTE: Each correct selection is worth one point

Select and Place:

Phases	Answer Area
Implement	Workshop activity
Initiate	Start the solution blueprint document.
Operate	Conduct the go-live readiness assessment.
Prepare	Review the mock cutover test strategy in a workshop.
	Conduct environment planning.
	Phase

Correct Answer:

Phases	Answer Area
	Workshop activity
	Start the solution blueprint document.
	Conduct the go-live readiness assessment.
	Review the mock cutover test strategy in a workshop.
	Conduct environment planning.
	Phase
	Initiate
	Prepare
	Implement
	Operate

QUESTION 76

A company plans its disaster recovery strategy for Dynamics 365 finance and operations apps. They need to determine the maximum expected downtime to the system based on Microsoft's commitment to system uptime. You need to determine the maximum downtime for the system according to Microsoft. What is the maximum downtime?

- A. 0.25% per year
- B. 0.01% per year
- C. 1% per month
- D. 0.25% per month
- E. 0.1% per month

Correct Answer: B

QUESTION 77

DRAG DROP

A company implements Dynamics 365 Commerce. The company has 200 retail stores. The company has a retail store custom solution and a third-party e-commerce solution. Dynamics 365 Commerce will replace the custom retail point of sale (POS) solution. Dynamics 365 Commerce must integrate with the company's third-party e-commerce solution. The third-party e-commerce solution must meet the following requirements:

- * Integrate with Microsoft Dynamics 365 for in-store order pickups.
- * Store orders in XML file format.
- * Send the XML order files to an FTP file location.

Dynamics 365 Commerce must meet the following requirements:

- * Serve as the inventory system of record.
- * Serve as the retail sales and financial system of record.
- * Provide point-of-sale (POS) capabilities in store.
- * Provide the ability for e-commerce customers to pick up orders in store.
- * Update the status of the sales order to prevent it from being fulfilled multiple times.

The custom retail POS solution must meet the following requirements:

- * Import retail transactions from all stores into Dynamics 365 Commerce.
- * Produce a single pipe-delimited file of all daily sales transactions by store.
- * Continue to operate for six months before it is deprecated.

You need to create data integrations for the business processes.

Which integration patterns should you use? To answer, drag the appropriate patterns to the correct requirements. Each pattern may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
