Mix Questions

QUESTION 1

A company uses Microsoft Teams. An employee sends a chat message to a user at another company. The recipient's company configures Microsoft Teams to use Islands mode. The recipient does not receive the messages in their Microsoft Teams app. You need to determine the cause of the issue. What should you conclude?

- A. Messages sent to an Islands recipient will always be received by the Skype for Business app.
- B. Messaging policy restrictions for the receiver are in place that block the communication.
- C. Messaging policy restrictions for the sender are in place that block the communication.

Correct Answer: B

Section:

Explanation:

QUESTION 2

A company plans to review access to Microsoft Teams by guest users. A team owner reports that guest users from an old project have not received an access review this month. The guest users are still active in the team, You need to troubleshoot the issue. What should you do?

- A. Launch the Azure Active Directory (Azure AD) admin center. Navigate to the Identity Governance section of the Azure AD blade.
- B. Launch the Microsoft 365 admin center. Navigate to the Guest access section of the Users blade.
- C. Launch the Teams admin center. Navigate to the Guest access section of the Users blade.
- D. Launch the Azure AD admin center. Navigate to the External Identities section of the Azure AD blade.

Correct Answer: C

Section:

Explanation:

QUESTION 3

A user works with two Microsoft 365 accounts on a domain-joined device. The user's device automatically signs in to Microsoft Teams by using a domain-joined account each time the user restarts their device. The user must manually sign out from Teams and then enter credentials for the second account when they want to use the second account. Microsoft Teams must launch without the user signing in to an account. You need to recommend a solution for the user. What should you recommend?

- A. Create the following registry key: (UPN)
ComputeAHKEY_CURRENT_USER\Software\Microsoft\Office\16.0\Common\Identity EnableADAL(REG.DWORD) 0x0XKXK)001 (0).
- B. Create the following registry key: (UPN)
Computer\HKEY_CURRENT_USER\Software\Microsoft\Office\Teams SkipUpnPrefill(REG_DWORD) 0xCXXXWOO! (1).
- C. Rename the following foWer and restart the machine:
C:\users\Sdir\AppData\Local\Packages\MicrosoftAAD.BrokerPlugin_cw5n1h2txyewy C)
- D. Configure Teams to use the Microsoft Authenticator app for authenticating users.

Correct Answer: B

Section:

Explanation:

QUESTION 4

A company uses Microsoft Teams. Users report that pinned apps disappear if they sign out of Teams. You need to troubleshoot the issue. Which policy should you check?

- A. Manage apps
- B. Conditional access
- C. App permission
- D. App setup

Correct Answer: D

Section:

Explanation:

QUESTION 5

You support a Microsoft Teams environment for a company. A member of a private channel reports that when they try to view files in the Files tab, the following message displays:

You need to recommend a solution to resolve the issue. Which two recommendations can the member perform to achieve this goal? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Remove and re-add the member to the channel.
- B. Set access permissions for the document library.
- C. Create a SharePoint address for the user.
- D. Unassign and re-assign the user SharePoint license.

Correct Answer: A, C

Section:

Explanation:

QUESTION 6

A company uses multiple private channels in a team named Projects.

When users in a specific private channel try to access the Files tab, they receive an error saying that they do not have permissions. You need to get the link to the private channels SharePoint site to verify permissions. What should you do?

- A. Click on the Open in SharePoint button in the private channel's Posts tab.
- B. Click on the Open in SharePoint button in the private channels Files tab.
- C. Open the private channels document library from the Projects SharePoint site.
- D. Open the SharePoint site from the SharePoint admin center.

Correct Answer: C

Section:

Explanation:

QUESTION 7

You support a Microsoft Teams environment for a company.

Employees report a variety of call quality issues.

You need to investigate the issues.

Which two tools should you use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Call Analytics
- B. Teams user activity report
- C. Teams Debug logs
- D. Teams Desktop toys
- E. Analytics and reports

Correct Answer: A, E

Section:

Explanation:

<https://learn.microsoft.com/en-us/microsoftteams/use-call-analytics-to-troubleshoot-poor-callquality>

QUESTION 8

A company uses a Session Border Controller (SBC) with Teams Direct Routing.

A user reports that they cannot initiate outbound calls to the following number +41 44 123 45 67.

The user can receive incoming calls. You observe that the user is assigned an OnlineVoiceRoutingPolicy that uses the following number pattern: `^(\\+41[0-9]{10})$`. You need to resolve the issue.

Which pattern should you use?

- A.
- B.
- C.
- D.

Correct Answer: A

Section:

Explanation:

QUESTION 9

A user works from a remote location and has a LAN connection and a mobile internet connection.

Each connection is provided by a different internet service provider.

The user can make and receive calls by using the LAN connection. The user cannot make or receive calls by using the mobile connection. You need to troubleshoot the issue.

Solution: Determine which calling policies are assigned to the user.

Does the solution meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section:

Explanation:

<https://learn.microsoft.com/en-us/MicrosoftTeams/teams-calling-policy>

QUESTION 10

DRAG DROP

A company uses only global policies for Microsoft Teams applications.

A user reports that they are experiencing issues related to Teams applications.

You need to determine which policy should be used to troubleshoot the issues based on their origin. What should you use to troubleshoot the issues? To answer, drag the appropriate features to the setting configuration requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Features

Permission policies

Manage apps

Setup policies

Answer Area

Setting

Limit the use of third-party apps.

Disable user pinning.

Disable specific apps.

Allow and block specific Microsoft apps.

Feature

Correct Answer:

QUESTION 14

HOTSPOT
A company uses Microsoft Teams.
The company defines the following normalization rule:

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic. NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Which values match the normalization rule?

only eight-digit numbers that start with 0 (zero)

only seven-digit numbers that start with 0 (zero)

all seven-digit numbers

only eight-digit numbers that start with 0 (zero)

all 8-digit numbers

The company reports that the normalization rule must match seven-digit phone numbers. Which pattern should you use for the normalization rule?

^0(\d{7})\$

^0(\d{7})\$

^(\d{7})\$

^1(\d{7})\$

^1(\d{7})\$

Answer Area:

Answer Area

Which values match the normalization rule?

- only eight-digit numbers that start with 0 (zero)
- only seven-digit numbers that start with 0 (zero)
- all seven-digit numbers
- only eight-digit numbers that start with 0 (zero)
- all 8-digit numbers

The company reports that the normalization rule must match seven-digit phone numbers. Which pattern should you use for the normalization rule?

- ^0(\d{7})\$
- ^0(\d{7})\$
- ^(\d{7})\$
